# Aurum Managed Swiss Franc Portfolio Ltd.

## Notes to the Financial Statements for the year ended 31 December 2011

### 1 General

Aurum Managed Swiss Franc Portfolio Ltd. (the “Swiss Franc Fund” or the “Company”) was incorporated in Bermuda on 2 February 2010 under the Companies Act 1981 as amended and acts as an investment company. Shares of the Swiss Franc Fund are denominated in Swiss francs. The Swiss Franc Fund is one of four Feeder Funds comprising the Swiss Franc Fund, Aurum Managed Sterling Portfolio Ltd. (the “Sterling Fund”), Aurum Managed Euro Portfolio Ltd. (the “Euro Fund”) and Aurum Managed Dollar Portfolio Ltd. (the “Dollar Fund”) that invest in Aurum Managed Portfolio Ltd. (the “Master Fund”). The other Feeder Funds have Sterling, Euro and US Dollar denominated shares respectively.

The Feeder Funds must solely invest into Participating Shares of the Master Fund, except in the case of the Swiss Franc, Sterling and Euro Funds in respect of currency hedging. The Participating Shares of the Master Fund are valued in US dollars. The Swiss Franc, Sterling and Euro Funds whilst investing into US dollar denominated Participating Shares of the Master Fund will, by appropriate currency hedging, seek to protect the value of their shares in swiss franc, sterling and euro terms respectively irrespective of movements in currency values between the US dollar and their respective currencies. The Master Fund pays the fees of the Administrators, Custodian, the Investment Advisor, audit, formation and minor out of pocket expenses and Directors’ fees of all funds. Each Fund will otherwise bear its own costs and liabilities.

The Company’s investment objective is to achieve long term capital growth by investing in the Participating Shares of the Master Fund. The annual report and audited financial statements of the Master Fund for the year ended 31 December 2011 are attached and should be read in conjunction with these financial statements.

The audited financial statements were approved by the Board of Directors on 25 April 2012.

### 2 Principal Accounting Policies

The principal accounting policies which have been applied are set out below.

#### Statement of Compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) and interpretations of IFRS adopted by the International Accounting Standards Board (IASB).

#### Basis of Preparation

The financial statements are presented in the currency of the primary economic environment in which the Company operates, which is Swiss franc, reflecting the fact that the redeemable Participating Shares are issued in Swiss francs and the Company’s operations are primarily conducted in Swiss francs. They are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss. All other assets and liabilities are stated at amortised cost.

The accounting policies have been applied consistently by the Company and are consistent with those used in the previous period.

#### Changes in accounting policy and disclosures

A number of new standards, amendments to standards and interpretations of IFRS are effective for annual periods beginning after 1 January 2011. None of these are expected to have a significant effect on the measurement of the amounts recognised in the financial statements of the company. IFRS 10, IFRS 11, IFRS 12 and IFRS 13 were issued in May 2011 but are not yet effective.

IFRS 9 (Financial Instruments) issued in November 2009 (IFRS 9 (2009)) will change the classification of financial assets and liabilities. The standard is not expected to have an impact on the measurement basis and classification of the financial assets since the majority of the Company’s financial assets are measured at fair value through profit or loss. The standard is effective for annual periods beginning on or after 1 January 2015 subject to EU endorsement. Earlier application is permitted. The Company does not plan to adopt this standard early.

## **Notes to the Financial Statements for the year ended 31 December 2011 (continued)**

### **2 Principal Accounting Policies (continued)**

#### **Changes in accounting policy and disclosures (continued)**

There are a number of other IFRS and interpretations which were in issue but have not been applied in the financial statements as they are not yet effective. The Directors anticipate that the adoption of these standards will have no material impact on the financial statements of the Fund.

#### **Investments**

The Company, on initial recognition, designated investments as at fair value through profit or loss as, in doing so, it results in more relevant information because the investments and related liabilities are managed as a group of financial assets and liabilities and performance is evaluated on a fair value basis and reported to key management personnel on that basis.

Investments in collective investment schemes are recorded at the net asset value per share as reported by the administrators of such funds. Investment transactions are recorded on the trade date at which the company becomes a party to the specific investment. Purchases and sales of financial assets and financial liabilities are recognised using trade date accounting. Realised capital gains and losses on investment transactions are determined on the weighted average cost basis and are included in the Statement of Comprehensive Income. Unrealised capital gains and losses from a change in the fair value of investments are recognised in the Statement of Comprehensive Income.

Where administrators are unable to provide net asset value per share, the Directors make their own assessment of value based on available information.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Fund has a legal right to set off the recognised amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Under IFRS, Participating Shares are treated as a financial liability and the format of the Statement of Financial Position reflects this position.

#### **Forward Foreign Exchange Contracts**

The Company seeks to protect the value of the Participating Shares in Swiss franc terms by entering into Forward Foreign Exchange Contracts. These contracts are recorded at fair value through profit or loss utilising the prevailing forward price at the Statement of Financial Position date. Any unrealised gain or loss is recognised in the Statement of Comprehensive Income.

#### **Translation of Foreign Currencies**

The results and financial position of the entity are expressed in Swiss franc which is the functional currency of the Company. Transactions in currencies other than Swiss franc are recorded at the transaction date rate. At each reporting date, monetary items and non-monetary assets and liabilities that are fair valued and are denominated in foreign currencies are retranslated at the rate prevailing on the reporting date. Gains and losses arising on retranslation are included in the net profit or loss for the period where investments are classified at fair value through profit or loss.

#### **Interest Income**

Interest income is recognised in the Statement of Comprehensive Income for all interest bearing instruments on an effective interest basis.

#### **Cash and Cash Equivalents**

Cash and cash equivalents comprise cash balances held at banks together with bank overdrafts. The bank overdrafts are repayable on demand and form an integral part of the Company's cash management system.

## Notes to the Financial Statements for the year ended 31 December 2011 (continued)

### 2 Principal Accounting Policies (continued)

#### Taxation

The Company has received an undertaking from the Ministry of Finance of Bermuda, under the Exempted Undertakings Tax Protection Act, 1966 exempting the Company from Bermuda income, profit, capital transfer or capital taxes, should taxes be enacted, until 31 March 2035.

#### Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

#### Use of Estimates

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the year. Actual results could differ from those estimates. Revisions to accounting estimates are recognised in the period in which the estimate is revised. The areas of estimates which have the most significant effect on the amounts recognised in the financial statements are disclosed in notes 8 and 10.

#### Derecognition of Financial Assets and Liabilities

A financial asset is derecognised when the Company loses control over the contractual rights that comprise that asset. This occurs when the rights are realised, expired or are surrendered. The Company uses the weighted average cost basis to determine the realised gain or loss on derecognition. A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

### 3 Fees

The Company pays no direct fees. Please refer to the accompanying Master Fund Financial Statements for notes regarding fees paid by the Master Fund.
