## ***Independent auditors' report to the directors of MAPS 2018-1 Limited***

### **Report on the audit of the non-statutory financial statements**

---

#### **Opinion**

In our opinion, MAPS 2018-1 Limited's group non-statutory financial statements (the "financial statements"):

- give a true and fair view of the group's assets, liabilities and financial position as at 31 March 2020 and of its loss and cash flows for the year then ended; and
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board (IASB).

We have audited the Directors Report and Consolidated Financial Statements ("financial statements") which comprise:

- the Consolidated statement of financial position as at 31 March 2020;
- the Consolidated statement of comprehensive income for the year then ended;
- the Consolidated statement of cash flows for the year then ended;
- the Consolidated statement of changes in equity for the year then ended; and
- the notes to the financial statements.

---

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") including ISA (Ireland) 800. Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Independence**

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

## Our audit approach

### Overview

#### Materiality

- \$6.3 million (2019: \$6.5 million)
- Based on 1% of total assets (2019 - 1%).

#### Audit scope

- We have adopted a fully substantive audit approach to this engagement with no reliance on internal controls.

#### Key audit matters

- Impairment of Aircraft.

### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

<b>Key audit matter</b>	<b>How our audit addressed the key audit matter</b>
<p><b>Impairment of Aircraft</b></p> <p>Refer to accounting policy on aircraft and depreciation, critical accounting estimates and judgements on page 9 and note 7 to the financial statements as well as the impact of Covid-19 on pages 13 and 14.</p> <p>Management performs an assessment on all aircraft held at year end to identify if there has been a trigger for impairment and calculate the resulting impairment charge.</p>	<p>We assessed the appropriateness of cash flow projections and challenged management's assumptions and inputs into the model such as the future lease rates, renewal assumptions and residual values, including how management have incorporated the uncertainties arising from Covid-19.</p> <p>We considered the overall outcome by reference to publicly available evidence from peer organisations and overall market information for comparable aircraft types.</p> <p>We assessed the adequacy of disclosures related to</p>

<i>Key audit matter</i>	<i>How our audit addressed the key audit matter</i>
<p>The assessment is carried out on an individual aircraft level and requires the exercise of judgement regarding inputs to future cash flow projections, including future lease rates and discount rates.</p> <p>The carrying value of aircraft on the balance sheet at year end is \$572m with current year impairments of \$3.4m.</p> <p>Based on the above, we determined the impairment assessment to be a key audit matter as it is a significant and judgemental item within the financial statements.</p>	<p>impairment and the potential impact of Covid-19 in the notes to the financial statements.</p> <p>We have no matters to report based on our procedures.</p>

### *How we tailored the audit scope*

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the group, the accounting processes and controls, and the industry in which the group operates.

The consolidated non-statutory financial statements include the results of MAPS 2018-1 and its subsidiaries. All intercompany profits, transactions and account balances are eliminated on consolidation.

The non-statutory consolidated financial statements of the Group are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. The non-statutory consolidated financial statements are prepared under the historical cost convention.

Our work involved the audit of all material line items and balances within the financial statements. All work was performed centrally by PwC Dublin, Ireland. There was no involvement of component auditors.

### *Materiality*

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

<b><i>Overall group materiality</i></b>	\$6.3 million (2019: \$6.5 million).
<b><i>How we determined it</i></b>	1% of total assets.
<b><i>Rationale for benchmark applied</i></b>	Using our professional judgement, we have considered the focus by the users of the accounts on the value of the assets, the fact that the majority of the significant balances in the profit and loss account are influenced by the value of the assets, and the considerations set out in ISA 320 in determining materiality, we conclude that setting materiality based on a % of total assets in respect of the balance sheet financial statement line items is the most appropriate benchmark.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above \$319,000 (2019: \$328,000) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

### **Conclusions relating to going concern**

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the group's ability to continue as a going concern.

---

## **Reporting on other information**

The other information comprises all of the information in the Directors' report and consolidated financial statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

---

## **Responsibilities for the financial statements and the audit**

### *Responsibilities of the directors for the financial statements*

As explained more fully in the Statement of Directors' responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

[https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf)

This description forms part of our auditors' report.

### *Use of this report*

This report, including the opinion, has been prepared for and only for the company's directors as a body for Purposes in accordance with our engagement letter and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come, including without limitation under any contractual obligations of the company, save where expressly agreed by our prior consent in writing.

# MAPS 2018-1 Group

## Statement of Directors' responsibilities

The Directors are responsible for preparing these non-statutory consolidated financial statements which give a true and fair view of the state of affairs of the Group and of the profit or loss of the Group for that year.

The Directors have elected to prepare the consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

In preparing these non-statutory consolidated financial statements, the Directors:

- Select suitable accounting policies and apply them consistently;
- Make judgments and accounting estimates that are reasonable and prudent;
- State that the financial statements comply with IFRS as issued by the IASB; and
- Prepare the non-statutory consolidated financial statements on a going concern basis unless it is inappropriate to presume that the Group will continue in business.

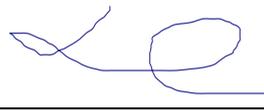

The Directors are responsible for keeping proper books of account that disclose with reasonable accuracy at any time the financial position of the Group. They are also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the board and authorised for issue on 17 June 2021.

# MAPS 2018-1 Group

Notes to the financial statements  
For the financial year ended 31 March 2020

## Statement of accounting policies

### Description of business

MAPS 2018-1 is an exempted company organised under the laws of Bermuda which is managed and controlled through its board of Directors in Ireland. MAPS 2018-1 is resident in Ireland for tax purposes. MAPS 2018-1 has a single class of common equity shares, all of which is held by a Bermudan Trust for such purposes under Bermudan law as the trustee may select. MAPS 2018-1 was incorporated on 14 March 2012.

On January 10, 2013, MAPS 2018-1 issued Series A Loans and Series B Loans (collectively, the "Loans"), in the outstanding principal amounts of \$557,010,000 and \$93,335,000 respectively, in each case pursuant to the Credit Agreement. To secure repayment of the Loans, the Bermudan Trustee pledged its interest in the common shares to Deutsche Bank Trust Company Americas, as Security Trustee.

In addition, MAPS 2018-1 issued a Series M1 Certificate in the initial outstanding amount of \$122,751,145 to Merx Aviation Finance Assets Ireland Limited and a Series M2 Certificate to the value of \$35,000,000 to GE U.S. Equity Holdings, Inc. The M1 Certificate holder is entitled to receive 8.5% return per annum (minimum distribution amount) on the outstanding amount, distributed in accordance with the priority of payments as outlined in an Intercreditor Agreement. The activities of MAPS 2018-1 Group include the sale, procurement and leasing of aircraft together with associated support services.

AABS announced it changed its name to MAPS 2018-1 Limited ("the Company"), effective April 19, 2018 and refinanced its debt outstanding as of May 15, 2018. As part of the refinancing, existing Series A and Series B debt totalling \$317,117,301 were redeemed and new Series A and Series B notes were issued for a total amount of \$470,000,000. MAPS 2018-1 also issued Series C notes amounting to \$36,500,000 and E Notes amounting to \$20,365,000 to Merx Aviation Finance Assets Ireland Limited in exchange for its existing M1 Interest, M2 Interest and E Interest.

On July 2, 2018, MAPS 2018-1 Group acquired a 100% interest in the shares of Phoebus Aviation Ireland Limited and its subsidiary, Keos Aviation UK Limited using the proceeds from its refinancing on May 15, 2018. As a result of the acquisition of Phoebus Aviation Ireland Limited, MAPS 2018-1 Group acquired six additional aircraft. MAPS 2018-1 Group owned twenty five aircraft as of March 31, 2019 and the aircraft are on lease to sixteen airlines in twelve countries.

MAPS 2018-1 changed its financial year end from 31 December 2018 to 31 March 2019 to align its financial year end to that of its ultimate parent, Merx Aviation Finance, LLC. The financial statements of MAPS 2018-1 are prepared for the twelve-month period ended 31 March 2020, the comparative amounts in the financial statements cover the year ended 31 March 2019 and are thus not entirely comparable.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## **Basis of preparation**

The non-statutory consolidated financial statements of the Group are prepared in accordance with IFRS as issued by the IASB. The non-statutory consolidated financial statements are prepared under the historical cost convention. Given that the obligations towards the note holders are limited to the net proceeds (after expenses) generated from the utilisation and sale of the aircraft and engine assets, the Directors have concluded that it is appropriate to prepare the non-statutory consolidated financial statements on a going concern basis. The preparation of non-statutory consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the financial year in which the estimate is revised if the revision affects that financial year or in the financial year of the revision and future financial years if the revision affects both the current and future financial years. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed below.

## **COVID-19**

As a result of the rapid spread of the novel coronavirus, COVID-19, throughout the world, on March 11, 2020, the World Health Organization ("WHO") classified the virus as a pandemic. The speed with which the effects of the COVID-19 pandemic have changed the worldwide economic landscape, outlook, and in particular the travel industry, has been swift and unexpected. The unprecedented and rapid spread of COVID-19 and the related travel restrictions and social distancing measures implemented throughout the world have significantly reduced demand for air travel. After initially impacting air travel service to China beginning in January 2020, the spread of the virus and the resulting global pandemic next affected the majority of the international network.

Beginning in March 2020, large public events were cancelled, governmental authorities began imposing restrictions on non-essential activities, businesses suspended travel and popular leisure destinations temporarily closed to visitors. Certain countries that are key markets for business have imposed bans on international travellers for specified periods or indefinitely. As a result, demand for travel declined at an accelerated pace, which has had an unprecedented and materially adverse impact on revenues and financial position of airline companies. The length and severity of the reduction in demand due to the pandemic is uncertain; while we are expecting for a modest demand recovery per the Company's going concern assessment, the exact timing and pace of the recovery is uncertain given the significant impact of the pandemic on the global economy. Airlines have taken numerous measures with respect to expense and liquidity management to minimize the impact of the pandemic. Additionally, central governments across the globe have taken initiatives to provide, relief, and economic security to the airlines.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## **Statement of accounting policies (continued)**

MAPS Group's financial condition depends on the ability of its' lessees to perform their payment and other obligations under their respective leases. The downturn in the aviation industry resulting from COVID-19 could weaken the financial condition and exacerbate the liquidity problems of some of MAPS Group's lessees, and increases the risk that they will delay, reduce or fail to make rental payments when due. In addition, the downturn in the future could result in lower utilization of MAPS Group's aircraft assets and could impact its' ability to lease or sell its' aircraft. All of these actual and potential developments arising from the outbreak of COVID-19 could materially and adversely affect MAPS Group's financial condition, results and cash flows.

Beginning in the first calendar quarter of 2020 and continuing in the second calendar quarter, MAPS Group began receiving requests from lessees for accommodations such as deferral of lease payments or other lease concessions. As of 31 March 2020, deferrals have been requested on 14 of its' 25 aircraft. The Servicer reviews these on a case by case basis and have worked out accommodation arrangements with 5 lessees with respect to 9 aircraft. In some cases, lease extensions or other amendments were also negotiated as part of the deferral accommodations. As of 31 March 2021, 1 deferral remained in place (other deferrals were fully paid back) with a deferral balance of US\$ 565,732 remaining outstanding (<1% of MAPS Group revenue for year to March 2021).

The Servicer remains in active discussions with the other airline customers and expect to continue to provide accommodation arrangements on a case-by-case basis.

While lease deferrals may delay MAPS Group's receipt of cash, MAPS Group generally recognise the lease revenue during the period even if a deferral is provided to the lessee, unless it is determined that collection is not reasonably assured. MAPS Group monitors all lessees with past due lease payments and discuss relevant operational and financial issues facing those lessees in order to determine an appropriate course of action.

Depending on the severity and longevity of the COVID-19 pandemic, the efforts taken to reduce its spread and the possibility of a resurgence of COVID-19, some of MAPS Group's lessees may return aircraft before the return date in their lease agreement or experience insolvency or initiate bankruptcy or similar proceedings that result in aircraft being returned to MAPS Group. If this occurs, MAPS Group may not be able to reposition the aircraft with other airlines as quickly as it would have historically been able to do or may incur increased costs in repositioning such aircraft. As a result, MAPS Group's revenues and collection rates would decline.

The future cash flows supporting the carrying value of the aircraft are based on current lease contracts and MAPS Group's estimates of future lease rates, useful lives and residual values for these aircraft. As a result of the COVID -19 outbreak and its impact on the aviation industry and the global economic environment, there is more uncertainty regarding the future cash flows relating to our aircraft. A reduction in the future expected cash flows relating to the aircraft could result in impairment losses that could be material to MAPS Group's financial results. In considering whether impairment exists, as of March 31, 2020, the Directors have estimated future cash flows from the asset discounted at a rate of 6.25%. Based upon the results of quantitative tests, MAPS Group recorded an impairment charge of \$3,347,932 on one aircraft.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## **Statement of accounting policies (continued)**

The Company's assumptions about future conditions important to its assessment of potential impairment of its amortizable assets, and receivables, including the impacts of the COVID-19 pandemic and other ongoing impacts to its business, are subject to uncertainty, and the Company will continue to monitor these conditions in future periods as new information becomes available, and will update its analysis accordingly.

The main risks arising from the Group's financial instruments are currency risk, price risk, interest rate risk, operational risk, credit risk and liquidity risk. The key financial risks facing the Group are outlined in Note 18 of the consolidated financial statements.

The following principal accounting policies have been applied:

### **Going Concern**

While acknowledging the uncertainties that the COVID-19 is causing, the Directors have reached the conclusion that it is appropriate to prepare the consolidated financial statements on a going concern basis. This conclusion has been reached after the review of extensive forecasts and a range of scenario planning. In certain circumstances, the uncertainties are also mitigated by the financial supports currently being considered between the lessees and their respective governments. The Group also has access to over US\$12 million of a Liquidity Facility with Credit Agricole under the Revolving Credit Agreement.

The Directors will continue to monitor the impact of the COVID-19 virus on the activities of the Group.

### **Basis of consolidation**

The consolidated non-statutory financial statements include the results of MAPS 2018-1 Group. All intercompany profits, transactions and account balances are eliminated on consolidation.

### **Revenue recognition**

Rental revenue from aircraft on operating lease is recognised as income as it accrues over the period of the lease. Where rentals are adjusted to reflect increases or decreases in prevailing interest rates such adjustments are accounted for as they arise. Lease rentals received in advance are deferred and recognised over the period to which they relate. Revenue from aircraft trading transactions is recognised as income when the contract for sale or supply of the relevant aircraft is substantially completed and the risk of ownership of the equipment is transferred.

### **Interest**

Interest income and expense are recognised on an effective interest rate basis. The effective interest rate is the rate that discounts estimated cash flows associated with the financial instrument through the life of the instrument, or where appropriate, a shorter period, to the net carrying amount.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## Statement of accounting policies (continued)

### Maintenance costs

The lessee has an obligation to pay for maintenance costs which arise during the term of the lease. In a large proportion of the lease contracts the lessee has the obligation to make a periodic payment of supplemental rent which is calculated with reference to the utilisation of airframes, engines and other major life-limited components during the lease. These supplemental rent rates are agreed in the terms of the lease contract. The supplemental rent collected is anticipated to cover maintenance costs when they arise. On the presentation of invoices and subsequent approval of the qualified maintenance expenditure, MAPS 2018-1 Group then has an obligation to contribute to the maintenance event. Supplemental rent will be recognised on receipt as a liability in the maintenance reserve. All amounts not refunded are recorded as lease revenue at lease termination. At the beginning of each new lease, accruals for lessor contributions representing net contractual obligations on the part of the Group to contribute to the lessee's cost of the next planned major maintenance event, expected to occur during the lease, are established.

In other lease contracts, the lessee is required to re-deliver the aircraft in a similar maintenance condition (normal wear and tear accepted) as when accepted under the lease, with reference to major life limited components of the aircraft. To the extent that such components are re-delivered in a different condition than at acceptance, there is normally an end-of-lease compensation adjustment for the difference at delivery.

### Taxation

Corporation tax is provided based on the taxable profits for the year. MAPS 2018-1 Group is subject to Irish corporation tax at a rate of 25%.

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. A provision is made at the rates expected to apply when the timing differences reverse.

Timing differences are differences between the taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in taxable profits in years different from those in which they are recognised in the financial statements.

A deferred tax asset is recorded where it is more likely than not to be recoverable. The recoverability of deferred tax assets is assessed annually by the Directors.

### Aircraft and depreciation

Aircraft are stated at cost less accumulated depreciation and are depreciated at rates calculated to write off the cost of the assets to their estimated residual value of 10%, on a straight line basis, over their estimated useful economic lives. The current estimate of useful economic life is 25 years.

Aircraft related expenditure, which enhances the value of the aircraft (including elements of heavy maintenance checks relating to pre-acquisition usage) is capitalised and depreciated at rates calculated to write off the cost of the assets, on a straight line basis, over their remaining estimated useful lives.

Additional depreciation is charged to reduce the carrying value of specific assets to the recoverable

# MAPS 2018-1 Group

## Notes to the financial statements (continued) For the financial year ended 31 March 2020

### **Statement of accounting policies (continued)**

amount where impairment is considered to have occurred. An impairment review is carried out when there has been an indication of impairment, usually on the basis of independent market appraisals and indications of market demand. Where the recoverable amount is greater than the carrying value, no adjustment is made.

Recoverable amount is the higher of the net realisable value and value in use. Net realisable value is the amount at which an asset could be disposed of less any direct selling costs, and value in use is the present value of future cash flows expected to be obtainable as a result of an asset's continued use, including those from contracted lease rentals, assumed future leases (not yet contracted) and estimated ultimate disposal proceeds.

### **Cash and cash equivalents**

Cash and cash equivalents comprise of cash balances and money market mutual funds which are fully liquid with an initial maturity of 3 months or less.

### **Foreign currencies**

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates ("the functional currency"). The United States Dollar ("USD") is the currency that most closely reflects the economic effects of the underlying transactions, events and conditions. The consolidated financial statements will be presented in USD which is the functional and presentation currency of the Group. Foreign currency transactions are translated into the functional currency using the exchange rate prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

### **Security deposits**

Security deposits on leased aircraft are generally paid by the lessee on the execution of the lease and are non-refundable during the term of the lease. The amounts are held as security for the timely and faithful performance by the lessee of its obligations during the lease and are included on the Consolidated Statement of Financial Position. The deposit may be applied against amounts owing from the lessee for rent or returned to the lessee on the termination of the lease. The lease deposits are classified as financial liabilities initially measured at fair value and subsequently at amortised cost.

### **Goodwill**

Goodwill arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses and goodwill is not amortised. Goodwill is tested annually for impairment. An impairment loss in respect of goodwill is not reversed.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## **Statement of accounting policies (continued)**

### **Expected credit loss (“ECL”)**

IFRS 9 requires the Group to record an allowance for ECLs for all in scope assets.

ECLs are recognised in three stages.

- For credit loss exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are within the next 12 months (a 12 month ECL).
- Those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life exposures, irrespective of the timing of the default (a lifetime ECL).
- For credit exposures that are credit impaired (i.e. have objective evidence of impairment at the reporting date), the company recognises lifetime expected credit losses for these financial assets.

The Group applies the first stage of ECL calculation where a financial asset has a low credit risk exposure, hence is deemed not to have suffered significant deterioration in its credit risk. The Group recognises an allowance based on 12 months ECLs for these financial assets.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off for these reasons when there is no reasonable expectation of recovering the contractual cash flows.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## Statement of accounting policies (continued)

### New standards and interpretations adopted during the year

(i) *IFRS 16 – Leases - has been adopted*

The Group initially applied IFRS 16 Leases from 1 April 2019. A number of other new standards and amendments are also effective from 1 January 2019 but they do not have a material effect on the Group's financial statements. The Group has assessed and reviewed the impact of IFRS 16 and deemed that it has no impact on future accounting periods other than disclosure impact. Under IFRS 16, the Group as lessor will continue to classify leases as finance and operating leases while for the lessees, the lease becomes an on-balance sheet liability. The Group assessed the classification of leases with reference to the underlying assets and concluded that all leases are operating leases under IFRS 16.

### New standards not yet adopted

A number of new standards and amendments to standards and interpretations which are not required have been approved by the International Accounting Standards Board and which would be applicable to the Group with an effective date after the date of these financial statements:

		<b>Effective date</b>
IFRS 3	<i>Definition of a Business</i>	1 January 2020

The Group has taken the decision not to adopt these standards early. The extent of the impact for future accounting periods is likely to be limited. The Group is still assessing the full impact at this time.

### **Critical accounting estimates and judgments**

The preparation of financial statements according to IFRS may require from the Directors, the use of estimates, assumptions and judgments, which influence the amounts included in the consolidated financial statements. The resulting accounting estimates, assumptions and judgments will, by definition, seldom equal the related actual results. The estimates and assumptions that have significant risk of material adjustment to carrying value of assets within the next financial year include depreciation (residual value), aircraft and engine valuation, maintenance reserves (estimation of level of maintenance reserves to be maintained) and recoverability of trade receivables.

- **Aircraft impairment**

As discussed in the accounting policy above, aircraft and engines are evaluated for impairment each reporting period or when there are indicators of impairment. This process involves the use of judgements and estimates. Estimates are utilised in determining the value in use and fair value.

Specifically, MAPS 2018-1 Group estimates future lease cash flows, remaining useful lives of the aircraft, discount rate, residual value, redeployment costs and current and future fair values. The estimates and assumptions used are based on historical trends as well as future expectations. For some of these estimates, the Group utilises the services of independent valuation firms to determine the appropriate values.

MAPS 2018-1 Group has utilised judgement in evaluating whether there are indicators of impairment. In this regard, management relies on legal factors, market conditions and the operational performance of the lease assets.

In addition, MAPS 2018-1 Group has applied judgement in determining the residual value of aircraft and engines. The estimated residual values are based on estimates received from independent appraisers or management's view when supporting transaction data exists. Changes

# MAPS 2018-1 Group

## Notes to the financial statements (continued) For the financial year ended 31 March 2020

### Statement of accounting policies (continued)

in global and regional economic and political conditions, government regulations, technological changes and other factors could cause us to revise the residual value assumptions. MAPS 2018-1 Group evaluates the appropriateness of these judgements and assessments each reporting period.

### 1 Turnover

An analysis of turnover by class of business is as follows:

	<b>Year ended 31 March 2020</b>	<b>15 month period ended 31 March 2019</b>
	<b>US\$</b>	<b>US\$</b>
Aircraft leasing – operating lease rental receivable	78,892,083	96,390,562
Other income	935,636	679,348
Release of maintenance reserves	-	2,615,863
Debt forgiveness on re-financing	-	39,579,394
	<u>79,827,719</u>	<u>139,265,167</u>

### Distribution of aircraft leasing revenues by geographic area

<b>Region</b>	<b>Year ended 31 March 2020</b>		<b>15 month period ended 31 March 2019</b>

As discussed in the statement of accounting policies, the Directors of MAPS 2018-1 Group undertake a review to determine whether an impairment provision is required in respect of MAPS 2018-1 Group's aircraft. During the year the Directors, in applying IAS 36 *Impairment of Assets*, have determined that an impairment provision was required in respect of MSN 3024 for \$3,347,932 (2019: \$3,848,161) to bring the aircraft value down to its recoverable amount at 31 March 2020. In considering whether impairment exists the Directors used inputs for current market values from third party appraisers to assess current market value and to assess value-in-use and have estimated future cash flows from the asset discounted at a rate of 6.25% (2019: 6%). Aircraft are pledged as security for the Group's obligations under the loans.

## MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

### 8 Goodwill

	<b>31 March 2020</b>	<b>31 March 2019</b>
	<b>US\$</b>	<b>US\$</b>

<b>Net Book Value</b>	<b>2,494,276</b>	<b>2,494,276</b>

MAPS 2018-1 recognised goodwill of \$2,494,276 on its acquisition of 100% of the shares in Phoebus Aviation Ireland Limited on 2 July 2018. The goodwill recognised represents the difference between the purchase price of the shares of \$1 and the separately identifiable net deficit of Phoebus Aviation Ireland Limited on 2 July 2018.

At each financial reporting date, the Group reviews the carrying amount of its goodwill to determine whether there is any indication of impairment under IAS 36 *Impairment of Assets*. During the period the Directors, in applying IAS 36 *Impairment of Assets*, have determined that an impairment provision was not required in respect of the goodwill recognized on the acquisition of Phoebus Aviation Ireland Limited

The lessees of the Group's aircraft have provided letters of credit totalling USD 6,003,824 (2019: USD 8,720,571) as security against their rental obligations under the lease agreements. Letters of credit totalling USD 9,099,370 are in place as security against the maintenance reserve obligations of the Group's aircraft (2019: nil).

## 14 Loans and borrowings

### (a) Principal

The Loans and Interests issued by MAPS 2018-1 on 15 May 2018 constitute direct obligations of MAPS 2018-1. In order to secure the repayment of the Loans and the payment and performance of all obligations of MAPS 2018-1 Group, MAPS 2018-1 Group entered into a Security Trust Agreement with the Security Trustee, Deutsche Bank Trust Company Americas, as regards Series A, Series B and Series C obligations.

## 15 Related Parties

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director of that entity. Key management personnel for MAPS 2018-1 are the board of Directors and Merx Aviation Finance Assets Ireland Limited.

MAPS 2018-1 Group considers Merx Aviation Finance Assets Limited and the board of Directors as related parties.

Merx Aviation has acted as Servicer to the MAPS 2018-1 Group since May 15, 2018 (GECAS previously acted as Servicer to the Group from January 10, 2013 to May 15, 2018). In addition to managing MAPS 2018-1 Group's aircraft, Merx Aviation manages aircraft owned by itself and other third parties. During the year, MAPS 2018-1 had the following transactions with GECAS and Merx Aviation as Servicer:

<b>Servicing fees</b>	<b>31 March 2020</b>	<b>31 March 2019</b>
	<b>US\$</b>	<b>US\$</b>
Opening balance	-	269,492
Servicing fees (old servicer)	-	470,215
Servicer termination fee (old servicer)	-	500,000
Servicing fees (new servicer)	3,236,995	2,322,600
Payments	<u>(3,236,995)</u>	<u>(3,562,307)</u>
	<u>-</u>	<u>-</u>

Merx Aviation Finance Assets Limited is the E note holder at 31 March 2020. During the period the following repayments were made on the E Note:

The nominal amount at 31 March 2020 was nil (2019: \$5,462,313); there were pay downs of \$21,999,862 (2019: \$16,537,548) in the year ended 31 March 2020.

There were no other related party transactions during the year.

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## 16 Lease commitments

MAPS 2018-1 Group had contracted to receive the following minimum cash lease rentals under the Aircraft Specific Lease Agreements entered into with the lessees:

	<b>31 March 2020 US\$</b>	<b>31 March 2019 US\$</b>
Less than one year	73,783,172	75,631,195
From one to two years	62,265,018	70,382,556
From two to three years	51,505,333	58,770,901
From three to four years	35,324,090	47,989,441
Thereafter	42,539,160	71,441,978
	<hr/> 265,416,773	<hr/> 324,216,071

## 17 Commitments and contingent liabilities

MAPS 2018-1 Group has no long-term contracts other than those with its service providers and lessees. MAPS 2018-1 Group has no contingent liabilities at 31 March 2020 (2019: nil).

## 18 Financial risk management

The Group has exposure to the following risks:

- Credit risk
- Market risk
- Liquidity risk
- Asset Risk

### a) Credit risk

Credit risk is the risk of financial loss to the MAPS 2018-1 Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

MAPS 2018-1 Group operates as a supplier to airlines. The airline industry is cyclical, economically sensitive and highly competitive. MAPS 2018-1 Group's ability to succeed is dependent on the financial strength of the airlines it leases to and their ability to react to and cope with the volatile competitive environment in which they operate. If a contracted lessee experiences financial difficulties this may result in defaults or the early termination of the lease. The Directors mitigate this risk by collecting deposits and/or maintenance reserves, putting in place appropriate settlement conditions in the event of default or early termination of the lease by the Lessees, as detailed in the lease agreements. MAPS 2018-1 Group monitors the performance of the Lessees on an ongoing basis.

MAPS 2018-1 Group manages its exposure to credit risk by placing all cash with Deutsche Bank, AIB and BNP Paribas, all recognised financial institutions. At year/period end a total of US\$ 57.9 million (2019: US\$ 40.1 million) was held in bank accounts with Deutsche Bank

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## 18 Financial risk management (continued)

### a) Credit risk (continued)

The S&P credit ratings of Deutsche Bank are as follows:

Long Term BBB+  
Short Term A-2

The maximum exposure of the Group's financial assets to credit risk is US\$ 63 million (2019: US\$ 44.3 million).

	<b>31 March 2020</b>	<b>31 March 2019</b>
	<b>US\$</b>	<b>US\$</b>
Cash and cash equivalents	8,200,961	11,348,669
Rental receivables	4,227,713	1,359,951
Supplemental rent receivables	-	1,348,590
Other receivables	942,184	665,827
Restricted cash	49,661,897	29,596,796
	<u>63,032,755</u>	<u>44,319,833</u>

The above balances are presented exclusive of the security deposits which may be held.

### b) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect MAPS 2018-1 Group's income or the value of its holding of financial instruments.

MAPS 2018-1 Group is highly dependent upon the continuing financial strength of the commercial airline industry. A significant deterioration in this sector could adversely affect MAPS 2018-1 Group through a reduced demand for aircraft and/or reduced market rates, higher incidences of lessee default and engines on the ground all of which may require that the carrying value of the aircraft to be materially reduced.

#### *Currency risk*

The functional currency of the industry is predominantly USD. MAPS 2018-1 Group manages its exposure to currency risk by effectively matching its lease revenue and its loan expenses to the functional currency.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. MAPS 2018-1 Group manages its exposure to currency risk by effectively matching its foreign currency assets and liabilities.

MAPS 2018-1 Group's exposure to currency risk as at 31 March 2020 is not significant.

# MAPS 2018-1 Group

Notes to the financial statements (continued)  
For the financial year ended 31 March 2020

## 18 Financial risk management (continued)

### b) Market risk (continued)

#### *Interest rate risk*

The Group manages its exposure to interest rate risk by fixing the rate of interest on its financial liabilities (Series A, Series B and Series C).

The Group's exposure to interest rate risk as at 31 March 2020 is not considered material as the Group had no variable rate interest financial instruments at financial period end.

### c) Liquidity risk

Liquidity risk is the risk that MAPS 2018-1 Group will not be able to meet its financial obligations as they fall due. MAPS 2018-1 Group's approach in managing liquidity is to seek to match the cash inflows on lease receivables with the cash outflows on loan payables.

MAPS 2018-1 Group is funding a significant part of its operations with debt financing. The ability of MAPS 2018-1 Group to continue in operation will be dependent upon its continued adherence to its payment obligations and other covenant requirements under the respective loan agreements, which are dependent upon the factors outlined above. Set out below is a table outlining the expected maturities of all financial liabilities of the Group as at 31 March, 2020.

The loans constitute direct, limited recourse obligations of the MAPS 2018-1 Group.

The table below shows the undiscounted cash flows of the Groups' financial liabilities as at 31 March 2020.

<b>31 March 2020</b>					<b>Total</b>	<b>Total</b>

\* 2019: Contractual cash consisting of principal on the Series A Loans, Series B Loans, Series C Loans and E notes (2017: Series A loans, Series B loans, M1 Interest and M2 (2017)).

### Credit Facilities:

On 10 January 2013 AABS entered into a revolving liquidity facility agreement to provide additional funds for the payment of certain liabilities if and to the extent that insufficient funds are available in the form of periodic revenues. A new revolving liquidity facility agreement was entered into on May 15, 2018 and the previous liquidity facility agreement was terminated on the same date.

Under the terms of the Credit Facility Agreement, Credit Agricole (the Liquidity Provider) has provided a credit facility to MAPS 2018-1 of up to US\$15.2 million which may be drawn upon, subject to certain conditions, to pay interest on the Series A and Series B Loans. Upon each drawing under the Credit Facility, MAPS 2018-1 will be required to reimburse the Credit Facility Provider for the amount of such drawing in accordance with the priority of payments specified in the Intercreditor Agreement. No amount was drawn on the liquidity facility at the year end.

### d) Asset Risk

Asset risk is the risk of deterioration in the underlying value of the aircraft. The Director's look to mitigate this risk by collecting maintenance reserves and/or collecting security deposits/letters of credit where appropriate.

MAPS 2018-1 Group bears the risk of re-leasing or selling the aircraft at the end of its lease term. If demand for aircraft decreases or the average fleet age increases or market lease rates decrease, this could affect market value. Should this condition continue for an extended period, it could affect the market value of the aircraft and may result in an impairment charge in accordance with IAS 36, *Impairment of Assets*.

# MAPS 2018-1 Group

## Notes to the financial statements (continued) For the financial year ended 31 March 2020

### 19 Fair value estimation

Under IFRS 13, *Fair Value Measurement*, the fair value of a financial asset and liability is the amount at which it could be exchanged in an arm's length transaction between informed and willing parties, other than in a forced sale or liquidation.

The carrying value of cash and cash equivalents, restricted cash balances, trade receivables and trade payables are assumed to approximate their fair values.

MAPS 2018-1 Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable outputs).

#### 31 March 2020

	Fair Value			Carrying Amount
	Level 1	Level 2	Level 3	
<b>Financial Assets</b>	US\$	US\$	US\$	US\$
Trade and other receivables	-	5,169,897	-	5,169,897

## 20 Subsequent events

While MAPS Group cannot currently reasonably estimate the extent to which the COVID-19 pandemic and measures taken to contain its spread will ultimately impact our business, MAPS Group believes the airline industry will eventually recover and aircraft travel will return to historical levels over the long term. MAPS Group is well positioned to offer solutions for airlines, through methods such as changes in lease agreements and terms. As the COVID-19 pandemic and efforts to mitigate its spread continue, MAPS Group expect the business, results of operations and financial condition to be negatively impacted. MAPS Group have considered a number of potential outcomes. Depending on the severity and longevity of the COVID-19 pandemic, the related efforts taken to reduce its spread, and the possibility of a resurgence of COVID-19, the COVID-19 pandemic could have a material, adverse impact on future revenue growth, liquidity and cash flow. After examining the available cash flow projections and resources available to the Group, the Directors believe that the Group will operate as a going concern for the next twelve months.

## 21 Approval of financial statements

The Directors of MAPS 2018-1 Group approved the financial statements on 17 June 2021.
