Independent Auditors' Report

To the Directors and Shareholders of FMG Middle East North Africa (MENA) Fund Ltd.

We have audited the accompanying financial statements of FMG Middle East North Africa (MENA) Fund Ltd. (the "Fund"), which comprise the statement of assets and liabilities, including the schedule of investments, as at March 31, 2011, and the statements of operations, changes in net assets and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Bermuda and Canada, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Bermuda and Canada. Those standards require that we comply with ethical requirements and plan and perform an audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as at March 31, 2011 and its financial performance and cash flows for the year then ended in accordance with accounting principles generally accepted in Bermuda and Canada.

Non-cash operating and financing activities

During the year ended March 31, 2011, investments with a fair market value of \$5,127,672 were transferred in-kind to settle redemption payments (see Note 7).

Notes to Financial Statements

March 31, 2011

1. **Operations**

FMG Middle East North Africa (MENA) Fund Ltd. (the "Fund") was incorporated in Bermuda on February 8, 2006 as an open ended investment fund, empowered by its bye-laws to issue, redeem and reissue its own shares at prices based on their net asset value.

The Fund invests directly or indirectly in other investment companies and managed accounts managed by independent investment managers in the Middle East and North Africa region with the objective of earning a return in excess of that earned on the Morgan Stanley Capital International World Index. Effective April 1, 2010 the Fund achieves this investment strategy by investing in FMG (EU) Middle East North Africa Fund, a sub-fund of FMG Funds SICAV plc which is a regulated Malta entity managed by FMG Malta Ltd., an entity related to FMG Fund Managers Limited (the "Manager").

2. Significant accounting policies

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in Bermuda and Canada. The following are the significant accounting policies adopted by the Fund:

(a) Investment transactions and valuation

Investments are categorized as held for trading in accordance with CICA Section 3855, *Financial Instruments* – *Recognition and Measurement* ("Section 3855") and therefore are recorded at fair value. Investments in other investment companies are recorded on the effective date of the subscription and are valued at their net asset value as reported by the administrators of the other investment companies. Where net asset values are not reported on a timely basis, the Manager may estimate the net asset value based on information provided by the other investment companies. The other investment companies in which the Fund invests generally value securities traded on a national securities exchange or reported on a national market and securities traded in the over-the-counter market at the last reported bid price if held long and the last reported ask price if sold short on the valuation day. Realized gains or losses on sale of investments are determined on an average cost basis. Realized gains and losses and the net change in unrealized gains and losses are included in the statement of operations. Dividend income is recorded on the ex-dividend date and is disclosed net of the withholding taxes.

The Fund may allocate its assets to an advisor by retaining the advisor to manage a managed account for the Fund rather than investing in the advisor's investment vehicle. Unlike an investment in a fund, the Fund will not receive shares or any other form of title, but will simply rank as a creditor of the advisor. There will be no investment capable of being held by the Fund's custodian on behalf of the Fund and the Fund's custodian will not be involved in providing custody for the assets held in the managed account. The advisor for the managed account will make separate custody arrangements for the investments held therein. Any loss arising as a result of an investment in a managed account will be borne by the shareholders.

The investment in the equity securities within the managed accounts are accounted for on a trade date basis and those that are traded on a national securities exchange are valued at the last reported bid price on the valuation day. If significant, the interest, dividend income, fees and realized gains and losses arising from the managed account are included in the relevant line items in the statement of operations. Similarly, cash, receivables and payables attributable to the managed accounts are included in the statement of assets and liabilities. The Fund had no managed accounts as at March 31, 2011 and 2010. It terminated its managed account during the fiscal year ending March 31, 2010.

Notes to Financial Statements

March 31, 2011

2. Significant accounting policies (continued)

(b) Forward foreign exchange contracts

The Fund purchases forward foreign exchange contracts in amounts approximating the net assets attributable to the Euro classes of preference shares to manage the Fund's exposure to changes in the US Dollar/Euro exchange rates. Forward foreign exchange contracts are recorded at fair value at the reporting date. The unrealized gain or loss on open forward foreign exchange contracts on each valuation date is the difference between the contract date exchange rate and the forward exchange rate at the valuation date, as reported by published sources, applied to the face amount of the contract. The unrealized gain or loss at the reporting date is included in the statement of assets and liabilities. Realized and unrealized changes in the fair value of the forward foreign exchange contracts are included in the statement of operations in the period in which the change occurs and are attributed entirely to the classes of redeemable preference shares that the forward contracts relate to (see Notes 2(c) and 11(e)).

(c) Allocation of profits and losses

The profit or loss of the Fund for each month, excluding realized and unrealized gains and losses on forward foreign exchange contracts used for hedging (Notes 2(b) and 11(e)) before management and incentive fees, is allocated at the end of each month between the US Dollar and Euro classes of redeemable preference shares (Note 7). The amount is allocated in proportion to the relative net assets of each class of redeemable preference shares on the first day of the month after adding subscriptions and deducting redemptions effective that day. All of the realized and unrealized gains and losses on forward foreign exchange contracts used for hedging are allocated to the appropriate class of redeemable preference shares. Management and incentive fees are calculated separately for each class of redeemable preference shares (Note 4).

(d) Foreign currency transactions

Foreign currency investments and balances that are monetary items, predominantly cash, are translated into US dollars at the rate of exchange prevailing on the valuation date. Foreign currency transactions are translated at the rate in effect at the date of the transaction. Any realized or unrealized exchange adjustments are included in the related caption in the statement of operations.

(e) Interest income and expense

Interest income and expense is recognized on the accrual basis of accounting.

(f) Rebate income

The Fund receives rebates as part of the management and incentive fees charged on these investments in other investment companies that are also managed by the Manager (Note 4) or entities related to the Manager, or as per the investment agreements entered into by the Fund's Manager. If the amount and timing of such receipts can be estimated, they are accrued; otherwise rebate income is recorded on a cash basis.

(g) Formation costs

Formation costs are deferred and amortized over a sixty-month period.

(h) Cash and cash equivalents

Cash and cash equivalents include cash and money market funds held with an original maturity date of ninety days or less.

Notes to Financial Statements

March 31, 2011

2. Significant accounting policies (continued)

(i) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

(j) Future accounting standards

The Canadian Accounting Standards Board ("ASB") previously confirmed that effective January 1, 2011, International Financial Reporting Standards ("IFRS") will replace Canadian GAAP for publicly accountable enterprises, which includes investment funds. In June 2010, the ASB issued an exposure draft "Adoption of IFRSs by Investment Companies", proposing that investment companies currently applying Accounting Guideline 18 "AcG 18" "Investment Companies" issued by the Canadian Institute of Chartered Accountants ("CICA"), defer the adoption of IFRS by one year to fiscal years beginning on or after January 1, 2012. In September 2010, the ASB approved the optional one year deferral from IFRS adoption for investment companies applying AcG 18. Management opted to defer the adoption of IFRS and is evaluating the impact of the adoption of IFRS.

3. Cash and cash equivalents

Cash and cash equivalents consist of the following:

	<u>2011</u>		<u>2010</u>
Cash Cash held in managed accounts	\$ 612,429	\$ _	13,530,646 2,014,792
	\$ 612,429	\$	15,545,438

4. Management, incentive and load fees

(a) Management fees

The Fund pays the Manager a management fee at a rate of 2.0% per annum of the net assets attributable to the Class A Shares of the Fund and 1.5% per annum of the net assets attributable to the Class B Shares of the Fund, calculated on a monthly basis and payable quarterly. For the year ended March 31, 2011, this management fee was \$276,689 (2010 - \$436,251), of which \$63,019 (2010 - \$101,725) was payable at March 31, 2011.

The Fund also pays fees to the manager of the managed account. For the year ended March 31, 2011, the Fund incurred management fees of \$nil (2010 - \$36,383), of which \$nil (2010 - \$26,813) was payable at March 31, 2011.

Notes to Financial Statements

March 31, 2011

4. Management, incentive and load fees (continued)

(b) Incentive fees

The Class A Shares also incur a quarterly incentive fee equal to 20% of the Net Profits of the Fund, if any, during each calendar quarter (each a "Performance Period") accrued with respect to each Class A Share of the Fund. The Net Profits are computed in a manner consistent with the principles applicable to the computation of the net assets of the Fund. If a redeemable preference share has a loss chargeable to it during any Performance Period and during a subsequent Performance Period there is a profit allocable to such a share, there will be no incentive fee payable until the amount of the net loss previously allocated to such redeemable preference share has been recouped. Incentive fees are only paid when the net asset value of the redeemable preference shares increase above a previously established "high water mark" net asset value for those shares.

In the event of either a redemption being made at a date other than the end of a Performance Period or the Management Agreement is terminated at any time prior to the last day of a Performance Period, the incentive fee will be computed as though the termination date or Redemption Date, as applicable, was the last day of such Performance Period. Once paid, the incentive fee will be retained by the Manager regardless of the Fund's future results.

The Class B Shares also pay to the Manager an incentive fee of 10% of the net profits attributable to the Class B Shares calculated monthly and payable quarterly. Net profits are defined as the amount by which cumulative profits attributable to the Class B Shares before the incentive fee but after deduction of all transaction costs, management fees and expenses exceeds a hurdle rate equal to the amount that would have been earned in that fiscal period had the assets of the Fund been invested at the USD 12-month LIBOR rate at the beginning of the fiscal period. Net profits include both realized and unrealized gains less losses on investments. If the net profit for a month is negative, it will be carried forward ("carry forward losses"). No incentive fee will be payable until the net profits in subsequent month(s) exceed carry forward losses and the hurdle as discussed above, together with any cumulative actual losses incurred in previous fiscal years, adjusted for redemptions. However, the net profit amount, upon which performance fees are calculated, is not offset by actual losses incurred in previous fiscal years at the time the performance fee becomes payable. Once earned, the incentive fee will be retained by the Manager regardless of the Fund's future results.

For the year ended March 31, 2011, incentive fees were \$nil (2010 - \$10,318), of which \$nil (2010 - \$nil) was payable at March 31, 2011.

The Fund is charged management and incentive fees by the Manager as described above on its net assets and its performance. However, some of the other investment companies in which the Fund invests are also managed by the Manager or entities related to the Manager. To ensure that the Fund is not double charged for such management and incentive fees, the Manager or entities related to the Manager, rebate to the Fund its proportionate share of such fees. Management and incentive fees rebated to the Fund during the year amounted to \$223,106 (2010 - \$9,570) of which \$51,080 (2010 - \$nil) is receivable at March 31, 2011.

(c) Load fees

The Manager may charge load fees of up to 5% of the amount subscribed. When charged these load fees will reduce the amount available to shareholders for the purchase of redeemable preference shares in the Fund. For the year ended March 31, 2011, load fees were \$4,144 (2010 - \$7,433), of which \$315 (2010 - \$1,400) were included within the accounts payable and accrued expenses.

One of the directors of the Fund is also a director of the Manager.

Notes to Financial Statements

March 31, 2011

5. Administration fees

Apex Fund Services Limited (the "Administrator") acts as the administrator, registrar and transfer agent for the Fund. For administration services provided, the Fund pays fees at the higher of \$3,000 per month for net assets up to \$10 million and \$4,000 per month for net assets exceeding \$10 million, or 15 basis points of the Fund's average net assets per annum.

Effective April 1, 2010, the minimum fee was reduced to \$2,500 per month for net assets up to \$10 million and \$3,500 per month for net assets exceeding \$10 million or 15 basis points of the net assets per annum. For the year ended March 31, 2011, Administration fees were \$49,980 (2010 - \$67,970), of which \$12,400 (2010 - \$18,420) was payable at March 31, 2011.

One of the directors of the Fund is also the Managing Director of the Administrator.

6. Custodian fees

Effective August 14, 2009, Credit Suisse AG (the "Custodian") acts as custodian to the Fund. Fees for custody services are charged a rate of 7 basis points per annum of the value of the net assets of the Fund under custody subject to an annual minimum of CHF 5,500. In addition, the Custodian is entitled to receive reimbursement for all related disbursements and out-of-pocket expenses incurred by the Custodian.

Effective August 26, 2009, the Custodian has a right of lien against all currency accounts and investments in other investment companies held by the Custodian on the Fund's behalf. The purpose of the right of lien is to secure any and all claims of the Custodian against the Fund from any agreement or contracts as well as claims on other legal grounds resulting from business operations with the Fund.

Effective January 3, 2011, fees for custody services are charged at 0.075% per annum of the value of the net assets of the Fund under custody up to \$500 million and 0.065% per annum of the value of the net assets of the Fund under custody in excess of \$500 million.

7. Share capital

The authorized share capital of the Fund is \$11,000, which is divided into 100 common shares of par value of \$1 each and 10,900,000 redeemable preference shares (the "Shares"), issued in US Dollars and Euro with a par value of \$0.001 each. Redeemable preference shares are issued as Class A and Class A09 shares (collectively, the "Class A Shares") and Class B and Class B09 shares (collectively, the "Class B Shares"). Effective February 2, 2009, Class A09 and Class B09 shares were offered for sale. Effective March 2, 2009, the existing Class A and Class B shares were closed for new subscriptions, except in situations where approved by the Board of Directors and the Manager.

The holder of the common shares is not entitled to receive dividends, may not redeem their holding and is only entitled to be repaid the par value of the common shares upon a winding-up or distribution of capital. The common shares are entitled to one vote per share at a general meeting. All the common shares are held by the Manager (Note 4). The redeemable preference shares carry no preferential or pre-emptive rights upon the issue of new shares and have no voting rights at general meetings of the Fund.

Shares may be purchased and redeemed on a Dealing Day, which is generally the first business day of each calendar month. Shares may be purchased at the net asset value per share calculated at the immediately preceding Valuation Day, generally the last business day of the preceding month. Class A Shares and Class B Shares may be redeemed with 10 and 20 business days' written notice, respectively, at their net asset value per share up to March 31, 2010. Effective from April 1, 2010, shareholders must provide redemption notice by at least the 20th day of the month prior to the dealing day subject to certain restrictions as described in the Prospectus.

Notes to Financial Statements

March 31, 2011

7. Share capital (continued)

If on any Valuation Day, any shareholder wishes to redeem Shares totaling more than 5% of the issued capital of the Fund or several shareholders wish to redeem Shares totaling more than 15% of the issued capital of the Fund, the Directors may defer redemption of such Shares, and the calculation of the redemption price, to a subsequent Dealing Day being not later than the fifth Dealing Day following receipt of the application for redemption. In such cases, suspended redemption requests shall be carried out on the basis of the next Net Asset Value.

At March 31, 2010, redemptions payable included \$5,127,672 payable to FMG (EU) Middle East North Africa Fund. These redemptions were partially settled by an in-kind transfer of certain of the Fund's investments in other investment companies which were valued at fair value at the time of the transfer.

The Directors suspended the determination of the Net Asset Value as well as the issuance and redemption of Shares for the period from February 25, 2011 to April 1, 2011, as a result of the Fund's exposure to the Egyptian market which was closed for trading during this period. On April 1, 2011, the Fund lifted the suspension and re-established the determination of the Net Asset Value as well as the issuance and redemption of Shares.

8. Taxation

Under current Bermuda laws, the Fund is not required to pay any taxes in Bermuda on either income or capital gains. The Fund has received an undertaking from the Minister of Finance in Bermuda exempting it from any such taxes at least until the year 2016.

It is management's belief that the Fund is not engaged in a United States trade or business and will not be subject to United States income or withholding taxes in respect of the profits and losses of the Fund, other than the 30% withholding tax on U.S. source dividends.

As a result, management has made no provision for income taxes in these financial statements.

9. Fair value of financial instruments

The methods used to determine the fair value of investments in other investment companies, managed accounts and unrealized gains and losses on forward foreign exchange contracts are described in Notes 2(a) and 2(b). The fair value of the Fund's other financial assets and financial liabilities approximate their carrying amount due to their short term nature.

CICA 3862 establishes a three-tier hierarchy as a framework for disclosing fair value based on inputs used to value the Fund's investments. The hierarchy of inputs is summarized below:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Changes in valuation methods may result in transfers into or out of an investment's assigned level.

Notes to Financial Statements

March 31, 2011

9. Fair value of financial instruments (continued)

The following is a summary of the inputs used as of March 31, 2011 and 2010 in valuing the Fund's investments and derivatives carried at fair value:

<u>2011</u>	Level 1	Level 2	<u>Level 3</u>	<u>Total</u>
Investments in other investment companies	\$	\$ <u>13,474,959</u>	\$	\$ <u>13,474,959</u>
Derivative assets	\$	\$ <u>49,597</u>	\$	\$ <u>49,597</u>
2010	Level 1	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments in other investment companies	\$ <u>6,844,107</u>	\$ <u>2,851,465</u>	\$	\$ <u>9,695,572</u>
Derivative assets	\$	\$(93,527)	\$	\$(93,527)

For investments in other investment companies the Fund has used the net asset value per share reported by the administrators of the investment companies to arrive at fair value.

10. Related party transactions

At March 31, 2011, SVP Ltd., a Fund managed by the Manager held 117,570.428 shares of class B USD in FMG MENA Fund Ltd.

On April 1, 2010 certain investments of the Fund were transferred to FMG (EU) Middle East North Africa Fund at their fair value of \$1,716,054. In exchange for these assets the Fund received shares in FMG (EU) Middle East North Africa Fund for the same value.

11. Financial instruments and risk management

The Fund's investment activities expose it to a variety of financial risks. The schedule of investments presents the investments held by the Fund as at the end of the year.

The Fund invests directly and indirectly in companies that are located in the Middle East and North Africa regions. This region is an emerging market and investments in this market involve risks that do not necessarily exist in more mature developed countries. These markets continue to experience significant political and economic change which has affected, and may continue to affect, the activities of enterprises operating in this environment.

Such risks include, but are not limited to, the Fund's investments in companies in the region which may prove difficult to sell in times of forced liquidity, risks involved in estimating the valuation of the underlying businesses, potential adverse changes to the legal, regulatory and taxation environments that could adversely affect the underlying businesses, currency fluctuations, changes in interest rates, institutional, settlement and custodial risks, and other risks generally associated with investing in immature emerging markets. These financial statements reflect management's assessment of the impact of the region's business environment on the operations and the financial position of the Fund. The future business environment may differ from management's current assessment.

Notes to Financial Statements

March 31, 2011

11. Financial instruments and risk management (continued)

(a) Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund invests directly through managed accounts and indirectly through other investments companies in securities that are traded in the Middle East and North Africa. These investment markets are volatile and have limited liquidity. As a result, the Fund may not be able to quickly liquidate its investments in other investment companies at their stated fair value in order to meet its liquidity requirements, including redemption requests from its shareholders. The Fund's exposure to liquidity risk is managed by the Manager.

The schedule of investments summarizes the redemption frequencies of the Fund's investments in other investment companies as at March 31, 2011. The information has been obtained by the Manager from the offering memoranda or similar information provided by the managers of the underlying investment companies.

The liabilities of the Fund are comprised of accrued expenses and redemptions payable and these fall due within 3 months of the date of the statement of assets and liabilities.

(b) Interest rate risk

Interest rate risk arises when an entity invests in interest-bearing financial instruments. The Fund does not hold investments which are sensitive to interest rates but is indirectly exposed to the interest rate risk of the investments held by the investment companies in which the Fund invests. However, the maximum amount of exposure is presented by the carrying amount of the investment in other investment companies.

(c) Credit risk

Credit risk arises from the potential inability of counterparties to perform under the terms of the related contract. The Fund has cash and cash equivalents, derivative transactions and investments held in the custody of a major bank with a long term credit rating of Aa2 issued by Moody's. As the Fund invests in other investment companies, the Fund is exposed to the credit risk of each of those underlying investment companies. The maximum amount of credit exposure is represented by the carrying amounts of the assets listed on the statement of assets and liabilities.

Bankruptcy or insolvency of the Custodian may cause the Fund's rights to be delayed with respect to the cash and cash equivalents and securities held in the custodial relationship. The Manager monitors the credit quality and financial position of the Custodian and should it decline significantly, the Manager will move cash holdings and custodial relationships to another institution.

(d) Market risk

Market risk is the risk that the changes in interest rates, foreign exchange rates or securities prices will affect the fair value of the financial instruments held by the Fund. The Fund invests directly through managed accounts and indirectly through other investment companies in securities that are traded in the Middle East and North Africa. These investment markets are volatile and difficult to predict and therefore expose the Fund to significant market risk. Maximum risk resulting from financial instruments is equivalent to their carrying value.

Notes to Financial Statements

March 31, 2011

11. Financial instruments and risk management (continued)

(d) Market risk (continued)

The Fund is indirectly exposed to the market risk of the investments held by the other investment companies in which the Fund invests. Some of those other investment companies may deal or trade derivative financial instruments as their principal investment activity or use these instruments as part of their investment strategy. This may result in market risk to those other investment companies in excess of the amount invested in these securities. However, the Fund's risk is limited to the net asset value of its investments in those other investment companies.

At March 31, 2011, if the price of the investments increased by 5%, this would have increased the net assets attributable to holders of redeemable preference shares by \$673,748 (2010 - \$484,779); an equal change in the opposite direction would have decreased the net assets attributable to holders of redeemable preference shares by an equal amount. Actual results will differ from this sensitivity analysis and the difference could be material.

(e) Currency risk

The Fund may invest in securities and other investment companies and enter into transactions denominated in currencies other than the US Dollar. Consequently, the Fund is exposed to risks that the exchange rate of the US Dollar relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the US Dollar.

The following table sets out the Fund's total exposure to foreign currency risk split between monetary assets and liabilities, net assets attributable to non-USD denominated share classes, forward foreign exchange contracts and the resulting net exposure to foreign currencies:

	Monetary <u>Assets</u>	Monetary <u>Liabilities</u>	Net assets attributable to non-USD denominated share classes	Forward FX contracts	Net <u>Exposure</u>
March 31, 2011 EUR	\$ 	\$ 	\$ <u>(3,253,213)</u>	\$ <u>3,318,115</u>	\$ <u>64,902</u>
March 31, 2010 EUR	\$ 	\$ (1,478)	\$ <u>(4,517,312)</u>	\$ <u>9,452,494</u>	\$ <u>4,933,704</u>

The amounts in the above table are based on the carrying value of monetary assets and liabilities, net assets attributable to non–USD denominated share classes and the underlying notional amounts of forward foreign exchange contracts.

Forward foreign exchange contracts are entered into by the Fund to hedge exposure to monetary assets and liabilities denominated in currencies other than USD and to hedge the exposure of certain share classes denominated in currencies other than USD.

Notes to Financial Statements

March 31, 2011

11. Financial instruments and risk management (continued)

(e) Currency risk (continued)

The gains and losses on forward foreign exchange contracts entered into for the purpose of hedging the exposure to monetary assets and liabilities are recorded in gains and losses on forward foreign exchange contracts in the statement of operations. The gains and losses on contracts entered into for the purpose of hedging the exposure of share classes denominated in currencies other than USD are also recorded in gains and losses on forward foreign exchange contracts in the statement or operations, but are allocated specifically to the non-USD denominated share classes to which the hedging activities, and resultant gains and losses, relate.

At March 31, 2011, if there was a 5% strengthening of the U.S. Dollar against the Euro, there would be an approximate net impact of \$(3,245) (2010 - \$(246,685)) on the statement of operations and on the net assets attributable to the hedged non-USD denominated share classes. A 5% weakening of the US Dollar against the Euro would have resulted in an approximate equal but opposite effect.

Actual results may differ from this sensitivity analysis and the difference could be material to the financial statements.

At March 31, 2011, the Fund had the following open forward foreign exchange contract:

Currency to be Bought	Currency to be Sold	Contract due <u>Date</u>	Fair Value
EUR 2,378,748	USD 3,318,115	April 4, 2011	\$ <u>49,597</u>

At March 31, 2010, the Fund had the following open forward foreign exchange contract:

Currency to be <u>Bought</u>	Currency to be Sold	Contract due <u>Date</u>	Fair Value
EUR 6,927,949	USD 9,452,494	April 7, 2010	\$ (93,527)

(f) Capital management

The Fund's objectives in managing the redeemable preference shares are to ensure a stable base to maximize returns to all investors, and to manage liquidity risk arising from redemptions. The Fund's management of the liquidity risk arising from redeemable preference shares is discussed in Note 11(a).

The Fund is not subject to any externally imposed capital requirements.

12. Subsequent events

For the period from April 1, 2011 to October 31, 2011, there have been subscriptions of \$751,634 and redemptions of \$3,364,973.
