## Report of Independent Auditors

The Board of Directors  
Firebird Global Fund II, Ltd.

We have audited the accompanying financial statements of Firebird Global Fund II, Ltd. (the “Fund”), which comprise the statement of assets and liabilities as of December 31, 2013, and the related statements of operations, changes in net assets and cash flows for the year then ended, and the related notes to the financial statements.

### **Management’s Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Firebird Global Fund II, Ltd. at December 31, 2013, and the results of its operations, changes in its net assets and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

## Notes to the Financial Statements

December 31, 2013

### **1. Organization**

Firebird Global Fund II, Ltd. (the “Fund”) is an open-ended investment company incorporated in the Cayman Islands as an exempted company and is registered under the Cayman Islands Mutual Funds Law. The Fund commenced operations on July 1, 2006, and the Fund’s Unrestricted Shares are listed on the Bermuda Stock Exchange. Subsequent to the suspension of redemptions on May 30, 2013, the Board of Directors of the Fund has resolved and approved an orderly liquidation of the Fund over a targeted four year term.

The Fund, along with Firebird Global Fund II, L.P. (the “Partnership”), invest substantially all of their assets in Firebird Global Master Fund II Holdings, Ltd. (the “Master Fund”), a Cayman Islands exempted limited company serving as a master fund registered under the Mutual Funds Law of the Cayman Islands. The financial statements of the Master Fund should be read in conjunction with the Fund’s financial statements. Prior to announcing the beginning of its wind-down, the Fund’s investment objective was long-term capital gains, which the Manager (see below) attempts to achieve by investing the assets of the Master Fund in a global portfolio primarily composed of securities that reflect the contrarian investment themes of the Manager. The Master Fund will tend to invest principally in emerging growth companies and emerging markets that are overlooked by more traditional investors. This may include investing in public and private securities, including pre-IPO private equity investments, in early-stage “frontier” markets, as well as investments (pursuant to appropriate exemptions and licenses) in countries subject to trade-related or other economic sanctions by the United States or other governments. The Master Fund has similar investment objectives to the Fund.

The Fund’s investment manager is FG2 Advisors, LLC (the “Manager”), a New York limited liability company. An affiliate of the Manager is also a shareholder of the Master Fund and the Manager is the general partner of the Partnership. The principals of the Manager are directors of the Fund and the Master Fund. The Manager is a registered investment advisor with the United States Securities and Exchange Commission as a “relying adviser” for which the “filing adviser” is Firebird Management LLC.

The administrator to the Fund is Trident Trust Company (Cayman) Limited (the “Administrator”). The Administrator is also the administrator to the Partnership and the Master Fund.

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

## Firebird Global Fund II, Ltd.

### Notes to the Financial Statements

#### **2. Significant Accounting Policies**

The financial statements of the Fund have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) and are stated in United States Dollars. The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

##### **Cash**

Cash includes amounts held by a bank organized in the Cayman Islands. The Fund does not expect any material losses as a result of this allocation.

##### **Investment Valuation and Related Investment Income**

The Fund records its investment in the Master Fund at fair value. The performance of the Fund is directly affected by the performance of the Master Fund. Attached are the audited consolidated financial statements of the Master Fund, including its consolidated condensed schedule of investments and significant accounting and reporting policies, which are an integral part of these financial statements. Valuation of investments held by the Master Fund is discussed in the notes to the Master Fund’s consolidated financial statements.

As at December 31, 2013, the Fund had approximately 38.37% ownership interest in the Master Fund and held all of its Class B shares. The Fund’s investment in the Master Fund includes \$1,191,189 as its investment in Special Situation shares.

The Fund records monthly its proportionate share of the Master Fund’s income, expenses, net realized and change in unrealized gains and losses. In addition, the Fund accrues its own income and expenses. The Fund records subscriptions and redemptions to its investment in the Master Fund on the transaction date.

The Fund allocates all net investment income or expense, net realized and changes in unrealized gains or losses to each share outstanding on a monthly basis in proportion to its interest in the net asset value of the Fund.

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

## Firebird Global Fund II, Ltd.

### Notes to the Financial Statements

#### **2. Significant Accounting Policies (continued)**

##### **Foreign Exchange Transactions**

Assets and liabilities denominated in foreign currencies are translated at the rates of exchange prevailing at the date of the financial statements. Transactions in foreign currencies are translated at the rates of exchange prevailing at the time of the transaction. Exchange gains or losses are included in the statement of operations.

The Fund does not isolate that portion of gains and losses on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and change in unrealized gains and losses from investments, derivatives, and foreign currency transactions.

##### **Taxation**

The Fund is not subject to any income, withholding or capital gains taxes in the Cayman Islands. As a result, no tax liability or expense has been recorded in the accompanying financial statements. If any form of taxation were to be enacted, the Fund has been granted an exemption therefrom until May 16, 2026.

##### **Fair Value of Financial Instruments**

The fair value of the Fund's assets and liabilities, which qualify as financial instruments ASC Topic 825, *Financial Instruments*, approximates the carrying amounts presented in the financial statements.

##### **Use of Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported and disclosed in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### **3. Investment Management Fees and Performance Allocation**

In consideration for its investment management services, the Fund pays the Manager, in advance, a quarterly management fee at an annual rate of 2% of the value of the Fund's net assets (as defined by Fund's Articles of Association, (the "Articles"). Commencing June 30, 2013, the management fee was reduced to 1% and will be further reduced to 0.75% after December 31, 2014.

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

## Firebird Global Fund II, Ltd.

### Notes to the Financial Statements

#### **3. Investment Management Fees and Performance Allocation (continued)**

For the year ended December 31, 2013, the Fund recorded \$236,837 in management fees, of which \$213,524 was paid during the year. Management fees in the amount of \$408,818 have been accrued with respect to the various series of Special Situation shares (see Note 4) and will be paid to the Manager only at the time of realization of the respective Special Situation Shares. This liability is presented as the balance “Due to Manager” on the statement of assets and liabilities.

A separate class of management shares of the Master Fund is owned by an affiliate of the Manager. These shares receive a special allocation each year from the Master Fund (the Performance Allocation) equal to 20% of the net increase in net asset value per share of each outstanding Class B Share of the Master Fund held by the Fund (including realized and unrealized net gains) for the fiscal year in excess of losses carried forward from prior years. The Performance Allocation is calculated separately with respect to each Class B Unrestricted and Class B Restricted Shares of the Master Fund held by the Fund.

Commencing June 30, 2013, the Performance Allocation will only be payable at such time as cumulative distributions to each investor exceed such investor’s high water mark as of June 30, 2013, plus a preferred return to such investor commencing June 30, 2013, equal to 8% per annum of the net asset value of the investor’s investment in the Fund as of June 30, 2013. Any distributions in excess of high water mark and the preferred return (which for avoidance of doubt will apply simultaneously not cumulatively) will be subject to a customary catch-up in order to give the management shares 20% of total distributions in excess of each investor’s high water mark.

The Performance Allocation, as well as any other portion of the net asset value of the Master Fund attributable to Management Shares, can be withdrawn at any time by the holder of the Management Shares. The holder of Management Shares may cause a portion of the Performance Allocation to be paid from the Master Fund to persons who have introduced investors to the Fund, in lieu of, or in addition to, subscription charges. In accordance with the Articles, the crystallized Performance Allocation is charged at the Master Fund level.

No Performance Allocation will be paid with respect to any unrealized gain or loss with respect to a Special Situation Investment prior to the redemption of the Special Situation Shares representing such Special Situation Investment.

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

## Firebird Global Fund II, Ltd.

### Notes to the Financial Statements

#### 3. Investment Management Fees and Performance Allocation (continued)

The Manager may, in its discretion, waive all or a portion of the management fee or performance allocation with respect to any shareholder.

#### 4. Share Capital

The Fund's authorized capital is \$50,000 divided into 5,000,000 shares, which may be issued as restricted shares, unrestricted shares, special situation shares or side investment shares, each with a par value of \$0.01. Shares are issued as voting shares unless otherwise designated by the Directors. Shares are issued, redeemed and converted in accordance with the terms of the Articles.

At the end of each fiscal year where a Performance Allocation has been charged to both the initial series and a subsequent series of shares, such subsequent series shall be rolled up into the initial series. For the year ended December 31, 2013, no series have been rolled up into the initial series.

By Directors' resolution dated May 30, 2013, the Fund suspended redemptions of shares for all redemption dates from May 31, 2013 forward. Subsequent notice was provided to shareholders that the Fund would enter into an orderly liquidation over a targeted four year term. Certain changes favorable to the investors were made including reduced management and performance fees (see Note 3), creation of an advisory committee consisting of the three largest shareholders, and the addition of a key man provision.

Share transactions for the year ended December 31, 2013, were as follows:

<b>Class</b>	<b>Shares at December 31, 2012</b>	<b>Shares Transferred</b>	<b>Shares at December 31, 2013</b>
Unrestricted shares	27,365.74	(156.31)	27,209.43
Restricted shares	8,002.08	—	8,002.08
SS Series 1008	4,658.84	—	4,658.84
SS Series 1208	6,435.37	—	6,435.37
SS Series 1209	692.96	—	692.96

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

## Firebird Global Fund II, Ltd.

### Notes to the Financial Statements

#### **4. Share Capital (continued)**

##### **Special Situation Shares**

From time to time the Fund may issue Special Situation Shares, each set of such shares representing an investment which lacks a readily ascertainable market value or is illiquid. At that time all shareholders in the Fund have a portion of their shares redeemed pro rata to the value of the Special Situation Investment relative to the Fund as a whole, and Special Situation shares are issued pro rata to each shareholder. These shares accrue Management Fees which are paid at the time of realization of the Special Situation Investment. The Special Situation Investment will normally be valued at fair value. A Performance Allocation will only be incurred on Special Situation Shares at the time of realization of the underlying investment.

Only holders of the series of Special Situation Shares representing a Special Situation Investment will share in the subsequent appreciation or depreciation of such Special Situation Investment.

Upon any sale or other disposition of all or a portion of a Special Situation Investment, the series of Special Situation Shares representing such Special Situation Investment will be redeemed and the net proceeds thereof will be either distributed to the holders of such series of Special Situation Shares or reinvested in Restricted or Unrestricted Shares on behalf of such holders. When it is determined that a Special Situation Investment should no longer be treated as a Special Situation Investment, the series of Special Situation Shares representing such Special Situation Investment will be redeemed and new Restricted or Unrestricted Shares having the same aggregate Net Asset Value will be issued to the holders of such Special Situation Shares.

#### **5. Indemnifications**

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

#### **6. Financial Instruments With Off-Balance-Sheet Risk**

The Fund's investment in the Master Fund is subject to market and credit risk of securities and financial instruments held or sold by the Master Fund. The Fund bears the risk of loss only to the extent of the market value of its respective investments and, in certain specific circumstances, distributions and redemptions receivable.

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

## Firebird Global Fund II, Ltd.

### Notes to the Financial Statements

#### 7. Financial Highlights

Financial highlights for the year ended December 31, 2013, were as follows:

	<b>Unrestricted Shares</b>	<b>Restricted Shares</b>
<b>Per share operating performance</b>		
Beginning net asset value	\$ 997.89	\$ 997.89
Change in net assets resulting from operations:		
Net investment expense	(31.35)	(40.74)
Net loss on investments, derivatives and foreign currency transactions	(499.63)	(490.24)
Performance allocation	—	—
Net change in net assets resulting from operations	(530.98)	(530.98)
Ending net asset value	\$ 466.91	\$ 466.91
<b>Total return</b>		
Total return before performance allocation	(53.21)%	(53.21)%
Performance allocation	—	—
Total return after performance allocation	(53.21)%	(53.21)%
<b>Ratios to average net assets</b>		
Total expenses before performance allocation	(4.65)%	(5.43)%
Performance allocation	—	—
Total expenses after performance allocation	(4.65)%	(5.43)%
Net investment expense	(4.63)%	(5.41)%

The above per share operating performance and total return are calculated for the initial series of Unrestricted and Restricted Shares. The ratios to average net assets are calculated for each class taken as a whole. An individual investor's per share operating performance, total return and ratios to average net assets may vary from these amounts and ratios based on the timing and amount of capital transactions and differing management fee rates.

*See attached consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd.*

Firebird Global Fund II, Ltd.

Notes to the Financial Statements

**7. Financial Highlights (continued)**

Financial highlights for the year ended December 31, 2013, were as follows:

	<b>Special Situation Shares</b>		
	<b>SS Series 1008</b>	<b>SS Series 1208</b>	<b>SS Series 1209</b>
<b>Per share operating performance</b>			
Beginning net asset value	\$ 201.67	\$ 81.37	\$ 778.19
Change in net assets resulting from operations:			
Net investment expense	(49.46)	(1.07)	(38.40)
Net loss on investments, derivatives and foreign currency transactions	(67.44)	(71.66)	(260.84)
Performance allocation	–	–	–
Net change in net assets resulting from operations	(116.90)	(72.73)	(299.24)
Ending net asset value	\$ 84.77	\$ 8.64	\$ 478.95
<b>Total return</b>			
Total return before performance allocation	(57.97)%	(89.38)%	(38.45)%
Performance allocation	–	–	–
Total return after performance allocation	(57.97)%	(89.38)%	(38.45)%
<b>Ratios to average net assets</b>			
Total expenses before performance allocation	(34.03)%	(1.65)%	(5.54)%
Performance allocation	–	–	–
Total expenses after performance allocation	(34.03)%	(1.65)%	(5.54)%
Net investment expense	(34.03)%	(1.65)%	(5.54)%

The above per share operating performance, total return and ratios to average net assets are calculated for each series taken as a whole. An individual investor's per share operating performance, total return and ratios to average net assets may vary from these amounts and ratios based on the timing and amount of capital transactions and differing management fee rates.

## Report of Independent Auditors

The Board of Directors  
Firebird Global Master Fund II Holdings, Ltd.

We have audited the accompanying consolidated financial statements of Firebird Global Master Fund II Holdings, Ltd. (the “Master Fund”), which comprise the consolidated statement of assets and liabilities, including the consolidated condensed schedule of investments, as of December 31, 2013, and the related consolidated statements of operations, changes in net assets and cash flows for the year then ended, and the related notes to the consolidated financial statements.

### **Management’s Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Master Fund’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Master Fund’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Firebird Global Master Fund II Holdings, Ltd. at December 31, 2013, and the consolidated results of its operations, changes in its net assets and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

# Firebird Global Master Fund II Holdings, Ltd.

## Notes to Consolidated Financial Statements

December 31, 2013

### **1. Organization**

Firebird Global Master Fund II Holdings, Ltd. (the “Master Fund”) is an open-ended investment company incorporated as an exempted company in the Cayman Islands on February 1, 2012. The Master Fund is registered under the Mutual Funds Law (2009 Revision) of the Cayman Islands and is subject to regulation under the Cayman Islands Monetary Authority.

Firebird Global Master Fund II, Ltd. (the “Company”) holds a majority of the investments and is a wholly owned subsidiary of the Master Fund. The Company was incorporated as an exempted company in the Cayman Islands on May 4, 2006. As part of the restructuring completed in 2012, the Company established tax residency in Luxembourg.

Prior to announcing the orderly liquidation of the feeder funds (see below), the Master Fund’s investment objective was long-term capital gains, which the Manager (see below) attempted to achieve by investing in a global portfolio primarily composed of securities that reflected the contrarian investment themes of the Manager. The Master Fund invested principally in emerging growth companies and emerging markets that were overlooked by more traditional investors. This included investing in public and private securities, including pre-IPO private equity investments, in early stage “frontier” markets, as well as investments (pursuant to appropriate exemptions and licenses) in countries subject to trade-related or other economic sanctions by the United States or other governments.

The Master Fund acts as the master fund in a master-feeder structure. Substantially all of the net assets of the two feeder funds, Firebird Global Fund II, L.P (the “Partnership”), a Delaware limited partnership that is registered under the Cayman Islands Mutual Funds Law and Firebird Global Fund II, Ltd. (the “Fund”), an open-ended investment company incorporated in the Cayman Islands as an exempted company and registered under the Cayman Islands Mutual Funds Law, are invested in the Class A and Class B shares, respectively, of the Master Fund. The other investor in the Master Fund is an affiliate of the Manager (see below), who holds all of the Management Shares (see Note 5) in the Master Fund.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### 1. Organization (continued)

The subsidiaries listed below are subsidiaries of the Company and are incorporated as private limited liability companies (Société à responsabilité limitée or S.à r.l.) under the laws of Luxembourg. During 2013, two fully owned subsidiaries, Firebird Mongolia Holdings IV S.à r.l. and Naco Holdings-1 S.à r.l. were liquidated.

<u>Subsidiary</u>	<u>Ownership</u>	<u>Date Incorporated</u>
Firebird Global Master Holdings-2 S.à r.l.	100%	June 8, 2012
Firebird GM2 S.à r.l.	100%	May 24, 2012
Khanate Resource Holdings-2 S.à r.l.	100%	April 17, 2012
SHG Holdings 1 S.à r.l.	100%	September 15, 2011

FG2 Holdings Malta Limited (“FG2”) is a subsidiary of the Company and was incorporated as a limited liability company under the Companies Act, 1995, of Malta on August 22, 2011. FG2 is currently inactive and undergoing liquidation. FG2 is wholly owned with the exception of one nominee share held by Firebird Mongolia Fund Ltd., an affiliated fund.

The Master Fund’s investment manager is FG2 Advisors, LLC (the “Manager”), a New York limited liability company. The principals of the Manager are directors of the Master Fund and the Fund and are principals of the general partner of the Partnership. One of the principals of the Manager is a director of the Company. The Manager is a registered investment advisor with the United States Securities and Exchange Commission as a “relying adviser” for which the “filing adviser” is Firebird Management LLC.

Trident Trust Company (Cayman) Limited (the “Administrator”) provides administrative services, and maintains the registered office of the Master Fund and the Company. Finco Trust Services Limited provides administration services and Finco Control Company Limited maintains the registered office of FG2. Fiduciaire DLN S.A. provides administration services to the Luxembourg companies while Dechert Luxembourg maintains the registered office of these companies.

JP Morgan Chase (the “Prime Broker”), located in the United States of America, serves as a custodian and the principal prime broker for the Master Fund and the Company.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **2. Significant Accounting Policies**

The consolidated financial statements of the Master Fund have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) and are stated in United States Dollars. The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

##### **Basis of Consolidation**

The consolidated financial statements include the results of the Master Fund, the Company and its subsidiaries, after the elimination of all intercompany balances and transactions.

The Master Fund consolidates its investment in other investment funds, in which it has a controlling financial interest. Consolidation requirements typically define a controlling interest as an ownership, directly or indirectly, of over 50% of the outstanding capital of another investment fund unless control is temporary or does not rest with the majority owner.

The Master Fund does not consolidate operating companies for which there is a controlling interest, unless the entity is an operating company providing services to the investment company. For the year ended December 31, 2013, the Master Fund did not consolidate any other investment funds or operating companies.

##### **Cash and Cash Equivalents**

Cash and cash equivalents include amounts due from banks on demand and deposits with original maturities of three months or less. Substantially all of the cash and cash equivalents are held at JP Morgan Chase. All cash and cash equivalents are held at banks organized in the United States of America, Luxembourg and Mongolia. The Master Fund does not expect any material loss as a result of this allocation.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **2. Significant Accounting Policies (continued)**

##### **Security Transactions and Related Investment Income and Expenses**

Security transactions are accounted for on a trade date basis. Realized gains and losses from investment transactions are determined using the first-in first-out method and recorded in the consolidated statement of operations. Interest is recorded on the accrual basis and dividends are recorded net of withholding taxes on the ex-dividend date in the consolidated statement of operations.

##### **Foreign Exchange Transactions**

Assets and liabilities denominated in foreign currencies are translated at the rates of exchange prevailing at the date of the consolidated financial statements. Transactions in foreign currencies are translated at the rates of exchange prevailing at the time of the transaction. Exchange gains or losses are included in the consolidated statement of operations.

The Master Fund does not isolate that portion of gains and losses on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and change in unrealized gains and losses on investments, derivatives, and foreign currency transactions.

##### **Fair Value of Financial Instruments**

The fair value of the Master Fund's assets and liabilities which qualify as financial instruments under Accounting Standards Codification Topic 825, *Financial Instruments*, approximates the carrying amounts presented in the consolidated financial statements.

In accordance with Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC Topic 820), fair value is defined as the price that the Master Fund would receive to sell an investment or pay to transfer a liability under an orderly liquidation in a timely transaction with an independent buyer in the principal market or, in the absence of a principal market, the most advantageous market for the investment or liability.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **2. Significant Accounting Policies (continued)**

##### **Fair Value of Financial Instruments (continued)**

ASC Topic 820 establishes a three-tier hierarchy to distinguish between inputs obtained from sources independent of the reporting entity that affect assumptions that market participants would use in pricing an asset or liability (observable inputs) and inputs that reflect the reporting entity's own assumptions that it thinks market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. The inputs are summarized in the three broad levels listed below:

Level 1 – valuations based on quoted prices in active markets for identical assets or liabilities that the Master Fund has the ability to assess and in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 securities. Because valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a significant degree of judgment.

Level 2 – valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 – valuations based on inputs that are unobservable and significant to the overall fair value measurement. These inputs may include the Manager's own assumptions in determining the fair value of investments.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Investments may move between different levels during the course of the year and are caused by certain information becoming available to the Manager. The Master Fund recognizes transfers between levels as occurring at the beginning of the reporting period. Information relating to transfers into and out of Level 3 can be found in Note 3.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **2. Significant Accounting Policies (continued)**

##### **Fair Value of Financial Instruments (continued)**

In general, portfolio securities that are traded in an active market (in most cases a market where there has been at least one transaction in the last 15 business days and had at least 12 trading days in the recent month at sufficient volumes with reasonably consistent price levels taking into account the volatility of the market in question) are classified as Level 1. These securities are valued at their last reported sales price on the valuation date in the case of securities listed or quoted on a recognized securities exchange, the U.S. NASDAQ National Market List or any comparable foreign quotation system for securities that generally trade daily, or if no prices were quoted on such date, at the last reported sales price on the last prior date when a price was quoted for such securities.

If no such prices have been quoted in an active market, the investment is valued in good faith by the Manager, in consultation with the Administrator, and approved by the Directors, according to the steps outlined in ASC Topic 820. For these Level 2 or 3 securities, the Manager may consult with and rely upon the advice of the Master Fund's custodians, market makers, brokers, and outside valuation services.

Level 2 securities will normally be priced using other observable information including identical or similar securities traded on other exchanges and quotations received from the counterparty, dealers, or brokers, whenever available and considered reliable. The Master Fund holds certain securities which are restricted under Rule 144A. Restricted securities are generally fair valued at a discount to similar publicly traded securities.

Investments in other investment funds that meet the definition of an investment company for which its net asset value or partners' capital has been measured in accordance with, or in a manner consistent with, the principles of ASC Topic 946, *Financial Services – Investment Companies*, are valued using the reported net asset value as a practical expedient. Investments in other investment funds are classified as Level 3, but can be Level 2 if they are redeemable at net asset value within six months of the measurement date.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **2. Significant Accounting Policies (continued)**

##### **Fair Value of Financial Instruments (continued)**

The Master Fund's investments in other investment funds are generally valued at the reported values, provided by or on behalf of the investment fund, after discounts for any applicable redemption charges and any lock-up periods, which valuations are prepared in accordance with such investment fund's governing documents. The Manager considers this a reliable representation of fair value if the investment fund is accepting subscriptions and processing redemptions based on this reported value. However, in certain circumstances, the Manager will estimate the value of such investment based on available relevant information as it considers material.

The strategy of the other investment fund in which the Master Fund has a position is to invest in emerging market equities. This is a closed end fund with a 5-year term which expired on October 31, 2013, and is currently in liquidation.

Fixed income securities are fair valued using market price quotations (where observable) or by the Fund's own assumptions (where unobservable). The fair value of derivatives is derived from the Black-Scholes options valuation model or directly from brokers with whom the derivatives are traded. The key inputs to the Black-Scholes options valuation model include historical volatility, market and exercise price, and time to expiry.

For Level 3 securities, the Manager will value the equity securities using either a "market approach," an "income approach," or both approaches, as appropriate. The "market approach" uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The "income approach" uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted).

In following these approaches, the types of factors that may be taken into account include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, the nature and realizable value of any collateral, the issuer of the security's ability to make payments, the issuer's earnings, discounted cash flows and net asset value analysis, the markets in which the issuer does business, comparisons of financial ratios of peer public companies, recent M&A transactions for comparable public or private companies, actual and imminent capital transactions in the subject investee company and the principal market for the relevant security, among other factors.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **2. Significant Accounting Policies (continued)**

##### **Fair Value of Financial Instruments (continued)**

The Manager and analysts monitor and review the valuation methodologies on a monthly basis. They use the latest available information to update the valuations each month. The Master Fund also engages the services of an independent valuation firm to perform quarterly valuations on certain Level 3 assets. A Valuation Committee oversees the process and procedures for the valuation of the Level 3 investments in accordance with the valuation policy approved by the Board of Directors. The Valuation Committee meets on a quarterly basis or more frequently as required. It is comprised of staff of the Manager and three Directors, who are also principals of the Manager.

Because of the inherent uncertainty of valuation of securities and investment funds traded in emerging market economies (see Note 10), the estimated fair values may differ significantly from values that will eventually be realized upon an actual liquidation of the portfolio, and such differences could be material.

##### **Use of Estimates**

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported and disclosed in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

##### **Investment Classification**

The industry and geographic classifications reflected in the consolidated condensed schedule of investments represent the Manager's belief as to the most meaningful presentation of the classification of the principal business of the holdings in the portfolio.

Firebird Global Master Fund II Holdings, Ltd.

**4. Due From/to Brokers and Concentration of Credit Risk**

Due from/to brokers generally includes amounts receivable or payable for securities transactions that have not been settled at the date of the consolidated financial statements. Substantially all investments are held with the Mongolian Securities Clearing House and Central Depository.

The Master Fund continuously monitors the credit standing of the Prime Broker and does not expect any material loss as a result of this concentration.

The Master Fund also invests in convertible, corporate and government bonds. Until such investments are sold or mature, the Master Fund is exposed to credit risk relating to whether the issuer will meet its obligations when they come due.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### 5. Share Capital

The authorized share capital of the Master Fund is \$100,000 comprised of 2,400,000 non-voting Class A Shares, 2,400,000 non-voting Class B Shares, 10,000 voting Management Shares, 90,000 Side Investment Shares, 100,000 Special Situation Shares, and 5,000,000 Undesignated Shares, each with a nominal or par value of \$0.01. All classes or series of shares are issued as voting Shares unless designated by the Directors as non-voting Shares.

The Restricted Shares shall not participate in any profits or losses attributable to newly issued securities (new issues) to the extent required by applicable Financial Industry Regulatory Authority (“FINRA”) rules.

Class A Shares of the Master Fund are held by the Partnership. Class B Shares of the Master Fund are held by the Fund. The Management Shares of the Master Fund are held and fully paid by FG2 Holdings LLC, an affiliate of the Manager.

The Master Fund’s shares are redeemed by the Fund and the Partnership at a price per share based on the Master Fund’s previous month net asset value per share for each share class.

Share transactions for the year ended December 31, 2013, were as follows:

<b>Class</b>	<b>Shares at December 31, 2012</b>	<b>Shares Subscribed</b>	<b>Shares Redeemed</b>	<b>Shares at December 31, 2013</b>
Class A L.P. Unrestricted	27,786.06	–	(548.58)	27,237.48

Management	90.25	–	–	90.25

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### 5. Share Capital (continued)

##### Special Situation Shares

From time to time, the Master Fund may issue Special Situation Shares, each set of such shares representing an investment which lacks a readily ascertainable market value or is illiquid. At that time, all Shareholders in the Master Fund have a portion of their shares redeemed pro rata to the value of the Special Situation relative to the Master Fund as a whole, and Special Situation Shares are issued pro rata to each shareholder. Such Special Situation Investment will be valued at fair value in accordance with the Master Fund's valuation policy. A Performance Allocation (see Note 6) will only be incurred on Special Situation Shares at the time of realization of the underlying investment.

Only holders of the series of Special Situation Shares representing a Special Situation Investment will share in the subsequent appreciation or depreciation of such Special Situation Investment.

Upon any sale or other disposition of all or a portion of a Special Situation Investment, the series of Special Situation Shares representing such Special Situation Investment will be redeemed and the net proceeds thereof will be either distributed to the holders of such series of Special Situation Shares or reinvested in Restricted or Unrestricted Shares on behalf of such holders. When it is determined that a Special Situation Investment should no longer be treated as a Special Situation Investment, the series of Special Situation Shares representing such Special Situation Investment will be redeemed and new Restricted or Unrestricted Shares having the same aggregate Net Asset Value will be issued to the holders of such Special Situation Shares.

Using the September 30, 2008, NAV, one equity position and two government bond positions were recognized as Special Situation Investment SS 1008 because they each became illiquid. In April 2009, one of the equity positions was redeemed from SS 1008 and new Restricted and Unrestricted Shares having the same aggregated value were issued pro-rata to each of the holders of SS 1008 shares. The aggregate value of the residual positions represents approximately 2.47% of the net assets of the Master Fund as at December 31, 2013.

Using the December 31, 2008, NAV, Special Situation Investment SS 1208 was recognized with respect to a private company operating in Kenya representing approximately 0.90% of the net assets of the Master Fund as at December 31, 2013.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **5. Share Capital (continued)**

##### **Special Situation Shares**

Using the December 31, 2009, NAV, one equity position, one convertible bond position and one government bond position were recognized as Special Situation Investment SS 1209 because they had each become illiquid. The aggregate value of the positions recognized represents approximately 2.01% of the net assets of the Master Fund as at December 31, 2013.

#### **6. Performance Allocation and Allocation of Net Profits and Net Losses**

Any net appreciation or net depreciation in the value of the assets of the Master Fund in any fiscal period which is not attributable to a particular class or series of Shares shall be allocated among the classes and series in proportion to the net asset value of each class or series, free of any uncrystallized performance allocation made to the Management Shares during the fiscal period, as of the beginning of such fiscal period.

The Management Shares shall be entitled to a special allocation with respect to each Class B Share issued by the Master Fund at the earlier of (i) the end of each fiscal year, (ii) the date of redemption with respect to any Class B Shares which are redeemed, or (iii) the date of transfer with respect to any Class B Shares which are transferred, equal to 20% of the net increase in net asset value per share of such outstanding Class B Share of the Master Fund (after the Master Fund-specific income and expenses) for the fiscal year in excess of losses carried forward from prior years. The special allocation is calculated separately with respect to each series of Class B Shares held by the Master Fund and allocated pro rata to each share in such series.

Class A Shares are not subject to the special allocation to Management Shares as the performance allocation is done at the Partnership level.

The performance allocation can be withdrawn at any time by the holder of the Management Shares by way of dividend or redemption. For the year ended December 31, 2013, no dividends were declared to the holder of the Management Shares. The Directors do not currently intend to declare dividends on the Class A or Class B Shares. For the year ended December 31, 2013, the Master Fund recorded no performance allocation from the Class B Shares issued.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **7. Taxation**

There is currently no taxation imposed on income or profits of the Master Fund by the Government of the Cayman Islands. If any form of taxation were to be enacted, the Master Fund has been granted an exemption therefrom until May 8, 2032.

The Master Fund is not subject to United States Federal, state or local taxation. The Master Fund reports tax information to its U.S. resident shareholders on the accrual basis. The Master Fund has elected to be treated as a partnership for U.S. Federal income tax purposes.

ASC Topic 740, *Income Taxes*, provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the consolidated financial statements. ASC Topic 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Master Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. The Master Fund has adopted ASC Topic 740 and its impact is reflected in these consolidated financial statements.

The Master Fund recognizes interest and penalties, if any, as capital gains tax expense in the consolidated statement of operations. During the year, the Master Fund did not accrue any interest or penalties.

Tax accruals are calculated in local currencies. The effective rate to the Master Fund can exceed or be less than the above rates if the local currency has appreciated or depreciated against the US Dollar during the period of investment.

Tax legislation in all of the jurisdictions in which the Master Fund invests is subject to varying interpretations and changes, which can occur unexpectedly. The Manager's interpretation of such legislation as applied to transactions and activities of the Master Fund since inception may be challenged by the relevant regional and federal authorities. It is not practical to determine the amount of unasserted claims that may manifest themselves, if any, or the likelihood of any unfavorable outcome thereof.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### 8. Derivative Financial Instruments

In the normal course of business, the Master Fund may enter into transactions involving derivative financial instruments in connection with its investing activities. These instruments can include currency, commodity, swap or equity options, and credit default swaps. The Manager may, from time to time, use derivatives to protect the overall portfolio from potential adverse change in risk appetite and may also identify speculative derivative positions that could be used to express particular macro views and potentially add alpha to the portfolio.

Derivatives are subject to the risk of non-performance by the counterparty, including risks relating to the financial soundness and creditworthiness of the counterparty. Derivative instruments are not guaranteed by an exchange or clearing house or regulated by any U.S. or foreign governmental authority. It may not be possible to dispose of or close out a derivative position without the consent of the counterparty, and the Master Fund may not be able to enter into an offsetting contract in order to be able to cover its risk. The Master Fund manages these risks on an aggregate basis along with the risks associated with its investing activities as part of its overall risk management policies.

Premiums paid or received in relation to derivative investments are recorded as cost of the investment in the consolidated statement of assets and liabilities and are subsequently adjusted to fair value. The changes in fair value are recorded in the net change in unrealized appreciation (depreciation) of investments, derivatives and foreign currency transactions in the consolidated statement of operations. As the derivative is exercised or closed, the net gain or loss will be realized. Each derivative represents a separate credit risk, as there is no master netting agreement with the respective third party.

The Master Fund held the following credit default swap as at December 31, 2013, as included in the consolidated statement of assets and liabilities. The outstanding notional amount is representative of the average notional exposure during the year.

<b>Contract Type</b>	<b>Notional Amount</b>	<b>Termination Date</b>	<b>Total Fair Value</b>
Sovereign (one) (buy protection)	2,500,000	03/20/2016	\$ (35,290)

Firebird Global Master Fund II Holdings, Ltd.

Notes to Consolidated Financial Statements (continued)

**8. Derivative Financial Instruments (continued)**

The following amounts are recorded in net change in unrealized depreciation of investments, derivatives and foreign currency transactions and net realized loss on investments, derivatives and foreign currency transactions in the consolidated statement of operations.

<b>Contract Type</b>	<b>Net Change in Unrealized Depreciation</b>	<b>Net Realized Loss</b>
Credit default swaps	\$ (15,290)	\$ (12,639)

**9. Related-Party Transactions**

In accordance with ASC Topic 850, *Related-Party Disclosures*, related parties include principal ownership (defined to include investments where the Master Fund combined with funds under common control hold interests greater than 10%), associated companies (defined as investments where the Master Fund combined with funds under common control hold interests less than 10% and have members on the Board of Directors), and Affiliates. Affiliates are defined as other investment funds managed by the Manager and related parties of the Manager.

Transactions with these entities during the year were as follows:

	<b>Principal Ownership</b>	<b>Affiliates</b>
Purchases of investments	\$ 134,251	\$ —
Sales of investments	2,518,755	1,096,773
Realized gain (loss)	(64,410)	109,568

\*There were no transactions during the year with associated companies

Firebird Global Master Fund II Holdings, Ltd.

Notes to Consolidated Financial Statements (continued)

**9. Related-Party Transactions (continued)**

Included in related parties are the following entities in which the Master Fund and Affiliates have greater than 20% aggregate interest in the entity and/or a Director(s) seat is held.

Name of Company	2013 Ownership by the Master Fund and Affiliates	2013 Equity in Investments Held by the Master Fund	Industry
Arax Energy Inc.	65.14%	\$ 398,750	Oil & Gas
Avax Technologies Inc	62.72	115,908	Biotech

Khot Infrastructure Holdings, Ltd.	52.32	95,553	Construction
Vanoil Energy Ltd.	44.57	2,333,053	Oil & Gas

All investments in the above companies are carried at fair value, as discussed in Note 2.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### **10. Investment Risks**

The Master Fund's investments are based principally in emerging and frontier economies. Therefore, they are subject to the risks inherent in those economies including, but not limited to:

- the ability to find a buyer in order to sell security positions owned by the Master Fund;
- the risk that until the system of ownership and transfer of ownership is fully centralized, custodian shares held on behalf of the Master Fund may be improperly deleted from companies' shareholder registers;
- the risk that brokers which hold shares for the Master Fund may become insolvent, which may result in a loss of such shares;
- uncertainties regarding existing local laws and regulations that provide protection to owners of investment securities;
- uncertainties regarding the convertibility of local currencies into U.S. dollars;
- private companies in which the Master Fund holds or will hold an interest will be returned to some form of state control or that the assets of such companies will be confiscated by the state without or with inadequate compensation to shareholders;
- the risk of an economic or political catastrophe or renationalization that could result in a substantial or total loss of the value of the investments;
- a liquidity risk associated with restructuring of companies, during which time such securities may be frozen until registration has been completed; and
- the risk of restrictions being imposed by foreign governments on the repatriation of cash.

The above risks are not unique in the context of emerging markets investing.

The Master Fund could be affected, for the foreseeable future, by these risks and their consequences, and the effects could be significant. The accompanying consolidated financial statements do not include any adjustments that may result from the future clarification of these uncertainties. Such adjustments, if any, will be reported in the Master Fund's consolidated financial statements in the period when they become known and estimable.

## Firebird Global Master Fund II Holdings, Ltd.

### Notes to Consolidated Financial Statements (continued)

#### 11. Indemnifications

The Master Fund enters into contracts that contain a variety of indemnifications. The Master Fund's maximum exposure under these arrangements is unknown. However, the Master Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

#### 12. Financial Highlights

Financial highlights for the year ended December 31, 2013, were as follows:

	<b>Class A L.P. Unrestricted Share</b>	<b>Class A L.P. Restricted Share</b>
<b>Per share operating performance</b>		
Beginning net asset value	\$ 1,263.03	\$ 1,263.03
Change in net assets resulting from operations:		
Net investment expense	(26.68)	(28.76)
Net loss on investments, derivatives and foreign currency transactions	(628.50)	(626.42)
Net change in net assets resulting from operations	(655.18)	(655.18)
Ending net asset value	\$ 607.85	\$ 607.85
<b>Total return</b>	(51.87)%	(51.87)%
<b>Ratios to average net assets</b>		
Total expenses	(3.12)%	(3.13)%
Net investment expense	(2.81)%	(2.82)%

The above per share operating performance and total return are calculated for the Class A Unrestricted and Class A Restricted Shares. The ratios to average net assets are calculated for each class taken as a whole. An individual investor's per share operating performance, total return and ratios to average net assets may vary from these amounts and ratios based on the timing of capital transactions.

Firebird Global Master Fund II Holdings, Ltd.

Notes to Consolidated Financial Statements (continued)

**12. Financial Highlights (continued)**

	<b>Class B Ltd. Unrestricted Share</b>	<b>Class B Ltd. Restricted Share</b>
<b>Per share operating performance</b>		
Beginning net asset value	\$ 1,186.37	\$ 1,184.34
Change in net assets resulting from operations:		
Net investment expense	(24.96)	(27.32)
Net loss on investments, derivatives and foreign currency transactions	(590.45)	(587.04)
Net change in net assets resulting from operations	(615.41)	(614.36)
Ending net asset value	\$ 570.96	\$ 569.98
<b>Total return</b>		
Total return before performance allocation	(51.87)%	(51.87)%
Performance allocation	—	—
Total return after performance allocation	(51.87)%	(51.87)%
<b>Ratios to average net assets</b>		
Total expenses before performance allocation	(3.12)%	(3.12)%
Performance allocation	—	—
Total expenses after performance allocation	(3.12)%	(3.12)%
Net investment expense	(2.80)%	(2.80)%

The above per share operating performance and total return are calculated for the Class B Unrestricted and Class B Restricted Shares. The ratios to average net assets are calculated for each class taken as a whole. An individual investor's per share operating performance, total return and ratios to average net assets may vary from these amounts and ratios based on the timing of capital transactions and differing performance allocation rates.

Firebird Global Master Fund II Holdings, Ltd.

Notes to Consolidated Financial Statements (continued)

**12. Financial Highlights (continued)**

	<b>SS 1008 Share</b>	<b>SS 1208 Share</b>	<b>SS 1209 Share</b>
<b>Per share operating performance</b>			
Beginning net asset value	\$ 323.28	\$ 141.38	\$ 1,232.50
Change in net assets resulting from operations:			
Net investment expense	(62.60)	–	(45.83)
Net loss on investments	(89.77)	(95.95)	(386.26)
Net change in net assets resulting from operations	(152.37)	(95.95)	(432.09)
Ending net asset value	<u>\$ 170.91</u>	<u>\$ 45.43</u>	<u>\$ 800.41</u>
<b>Total return</b>			
Total return before performance allocation	(47.13)%	(67.86)%	(35.06)%
Performance allocation	–	–	–
Total return after performance allocation	<u>(47.13)%</u>	<u>(67.86)%</u>	<u>(35.06)%</u>
<b>Ratios to average net assets</b>			
Total expenses before performance allocation	(25.01)%	–%	(4.11)%
Performance allocation	–	–	–
Total expenses after performance allocation	<u>(25.01)%</u>	<u>–%</u>	<u>(4.11)%</u>
Net investment expense	(25.01)%	–%	(4.11)%

The above per share operating performance and total return are calculated for the Special Situation Shares. The ratios to average net assets are calculated for each class taken as a whole. An individual investor's per share operating performance, total return and ratios to average net assets may vary from these amounts and ratios based on the timing of capital transactions.

Firebird Global Master Fund II Holdings, Ltd.

Notes to Consolidated Financial Statements (continued)

**13. Subsequent Events**

Management has evaluated events subsequent to year end and through March 26, 2014, the date the consolidated financial statements were available to issue. During this period, the Master Fund recorded redemptions of \$91,785 in relation to the Fund and Partnership expenses paid by the Master Fund.

Starting in 2014, Trident Trust Company (Luxembourg) S.A. began providing the administration services to the Luxembourg companies.

**About EY**
