To the members of International Titans Basket Limited

We have audited the financial statements of International Titans Basket Limited (the "Company") for the year ended 30 September 2014, which comprise the Profit and Loss account, Statement of Total Recognised Gains and Losses, Balance Sheet, Reconciliation of Movements in Shareholders' Funds, Cash Flow Statement and related notes. The financial reporting framework that has been applied in their preparation is in accordance with applicable law and United Kingdom Accounting Standards (Generally Accepted Accounting Principles).

This report is made solely to the Company's members, as a body, in accordance with section 262 of The Companies (Guernsey) Law, 2008. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on pages 4 and 5, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the United Kingdom Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Report of the Directors to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies, we consider the implications for our report.

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view;
- are in accordance with Generally Accepted Accounting Principles; and
- comply with The Companies (Guernsey) Law, 2008.

INTERNATIONAL TITANS BASKET LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 September 2014

1. PRINCIPAL ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

Basis of preparation

The financial statements of International Titans Basket Limited, with domicile in Guernsey, have been prepared in accordance with United Kingdom Generally Accepted Accounting Principles (UK GAAP), and on the historical cost basis, except for the revaluation of investments.

Going concern

The financial statements have been prepared on a going concern basis.

Foreign exchange

Foreign currency assets and liabilities are translated into Australian Dollars at the rate of exchange ruling on the balance sheet date. Foreign currency transactions are translated into Australian Dollars at the rate of exchange ruling on the date of the transaction. Foreign exchange gains and losses are included in the profit and loss account in the period in which they arise.

Income

Bank interest is accounted for on an accruals basis.

Investments

The Company's option investments are designated as investments at fair value through profit or loss.

The Company's bond investments are designated as available-for-sale investments.

All investments are measured initially at cost, which is the fair value of whatever was paid to acquire them. Transaction costs are expensed as incurred in the profit and loss account. Investments are derecognised when the rights to receive cash flows from the investments have expired and the Company has transferred substantially all risks and rewards of ownership.

After initial recognition, the Company uses the following measurement bases for its investments:

- i) Those so designated at inception: Fair value through profit and loss;
- ii) Available-for-sale investments: Fair value through equity.

Fair value is calculated using quoted market prices, independent appraisals, discounted cash flow analysis or other appropriate valuation models at the year end date. Gains arising on the disposal of investments are recognised in the profit and loss account, as are unrealised gains on investment at fair value through profit and loss. Unrealised gains on available-for-sale investments are recognised in the statement of total recognised gains and losses. All gains or losses are recognised in the period in which they arise. Prior year revaluation gains on available-for-sale investments disposed of during the year are recycled through profit and loss in the period in which the investments are disposed of.

Liquid resources

Cash at bank comprises cash in hand and deposit accounts where monies can be withdrawn without penalty and with no more than 1 day's notice. Deposit accounts that do not satisfy the above criteria are classified as fixed deposits.

Taxation

The Company is exempt from Guernsey income tax under the Income Tax (Exempt Bodies) (Guernsey) Ordinance 1989 and is charged an annual exemption fee of £600 (£1,200 with effect from calendar year 2015).

13. ULTIMATE CONTROLLING PARTY AND RELATED PARTY TRANSACTIONS

The Company has no ultimate controlling party at the year end date.

Praxis Fund Services Limited ('PFSL') is deemed to be a related party, as Janine Lewis is a Director of the Company and a director of and shareholder in PFSL; Chris Hickling is a Director of the Company and a shareholder in PFSL; and David Stephenson is a Director of the Company and an employee of PFSL. During the year PFSL received AUD 91,431 (2013: AUD 91,352) for their services as administrator. At the year end date administration fees of AUD 41,839 had been paid to PFSL in advance (2013: AUD 41,839).

14. FINANCIAL INSTRUMENT RISK FACTORS

The Company is exposed to market risk, credit risk and liquidity risk from the financial instruments it holds. The risk management policies employed by the Company to manage these risks are discussed below:

(i) Market risk

(a) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the Company's measurement currency. The Company is not materially exposed to foreign exchange risk as most transactions are in Australian Dollars. The Company's management monitors exchange rate fluctuations on an ongoing basis.

The Company has no material currency exposures at either 30 September 2014 or 30 September 2013.

(b) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on its cash at bank and fixed deposits. At 30 September 2014, the Company held cash on call account of AUD 158,076 (2013: AUD 2,740,335), which earns interest at floating rates. The company also held AUD 408,743 and AUD 1,300,000 (2013: AUD nil) on fixed deposit, which earned interest at a fixed rate of 2.75% and 3.20%, respectively.

Had these balances existed for the whole of the year, the effect on the Profit and Loss Account of an increase/decrease in short term interest rates of 0.5% per annum would have been an increase/decrease in post-tax profit for the year of AUD 9,334 (2013: AUD 13,702).

The available-for-sale investments are exposed to fair value interest rate risk. However, whilst changes in market interest rates may give rise to short-term fluctuations in fair value, if the bonds are held to maturity their maturity value is fixed and therefore not subject to interest rate risk.

The Company has no other material interest rate exposures at 30 September 2014.

INTERNATIONAL TITANS BASKET LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 September 2014

14. FINANCIAL INSTRUMENT RISK FACTORS (continued)

(i) Market risk (continued)

(c) Price risk

Price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. The Company's investments at fair value through profit and loss are directly affected by changes in market prices.

Price risk is managed by investing in a call option on a basket of indices, with an international bank, JP Morgan. At the balance sheet date JP Morgan has a Fitch long-term credit rating of A+ (2013: A+).

Price risk is also managed by investing in a zero coupon bond, with an international bank, Investec plc. At the balance sheet date Investec plc has a long-term Fitch credit rating of BBB- (2013: BBB-).

The investments at fair value through profit and loss and available-for-sale investments expose the Company to price risk. The details are as follows:

	2014	2013
	AUD	AUD
Index call option with JP Morgan	30,635,718	18,587,361
Investec plc Zero Coupon Bonds	55,232,658	52,202,052
	<u>85,868,376</u>	<u>70,789,413</u>

A 10 per cent increase/decrease in the value of the investments at fair value through profit and loss at 30 September 2014 would have increased/decreased the Net Asset Value of the Company by AUD 3,063,572 (2013: AUD 1,858,736).

A 3 per cent increase/decrease in the value of the available-for-sale investments at 30 September 2014 would have increased/decreased the Net Asset Value of the Company by AUD 1,656,980 (2013: AUD 1,566,062).

(ii) Credit risk

Credit risk arises when a failure by counter-parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the year end date. These financial assets include cash and cash equivalents, debtors, available-for-sale investments and investments at fair value through profit and loss. The Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying value or fair value of these instruments.

The Company aims to manage credit risk by holding its securities and cash assets with reputable banking institutions with an investment grade long-term credit rating, ie a Fitch rating in the range AAA+ to BBB-. In the event of any downgrading in the long-term credit rating of any issuer below this level, the Company in its absolute discretion would consider the following courses of action: selling the relevant securities to third party purchasers and reinvesting the proceeds in the purchase of securities of another issuer, such that the new securities would replicate as closely as possible the terms and conditions of the original securities; and transferring cash to another banking institution. The Directors would only seek to sell the relevant securities or transfer cash if they consider, having consulted with the investment advisor, that such would be in the best interests of the Company and its shareholders.

The Company monitors the creditworthiness of its counterparties on an ongoing basis.

The majority of the Company's trade and receivables consist of prepayments and there is no credit risk associated with these balances.

The available-for-sale investments are held with Investec plc, which has a Fitch long-term rating of BBB- (2013: BBB-) at the balance sheet date. The investments at fair value through profit and loss are held with JP Morgan, which has a Fitch long-term rating of A+ (2013: A+) at the balance sheet date.

14. FINANCIAL INSTRUMENT RISK FACTORS (continued)

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet financial liability obligations as they fall due, which may cause financial losses to the Company. The Company places its cash and cash equivalents with financial institutions on a short-term basis in order to maintain a high level of liquidity. This ensures that the Company is able to complete transactions in a timely manner, thus minimising the Company's exposure to such losses.

The Board reviews the cash of the Company every quarter and will subsequently move monies from the direct reserve to the call account to meet its short term obligations. At 30 September 2014 the cash on call to be applied to short term obligations was AUD 158,073 (2013: AUD 2,740,335), which is considered by the Board to be sufficient to meet all the Company's short term obligations.

The following table analyses the Company's financial liabilities, which will be settled on a net basis, into relevant maturity groupings based on the remaining period from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices);
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).
