4Q 2025

The financial information on which this supplement is based is unaudited and has been prepared in accordance with HSBC's significant accounting policies as described in the Annual Report and Accounts 2025. The financial information does not constitute financial statements prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board ('IFRS Accounting Standards'), is not complete and should be read in conjunction with the Annual Report and Accounts 2025, the Interim Report 2025, and other reports and financial information published by HSBC.

Unless stated otherwise, all information is on a reported basis. Constant currency performance is computed by adjusting reported results for the effects of foreign currency translation differences, which distort year-on-year comparisons. It is computed by retranslating into US dollars for non-US dollar branches, subsidiaries, joint ventures and associates: the reported income statements of comparative periods at the average rates of exchange for the most recent period; and the reported balance sheets of comparative periods at the prevailing rates of exchange on 31 December 2025. We consider constant currency performance to provide useful information for investors by aligning internal and external reporting, and reflecting how management assesses year-on-year performance. Definitions and calculations of other alternative performance measures are included in our 'Alternative performance measures' on page 92 of our Annual Report and Accounts 2025. Alternative performance measures are reconciled to the closest reported financial measure.

We separately disclose 'notable items', which are components of our income statement which management would consider as outside the normal course of business and generally non-recurring in nature.

The quarterly comparatives are translated at average 4Q25 exchange rates for the income statement or at the prevailing rates of exchange on 31 December 2025 for the balance sheet. The income statement for the 12 months to 31 December 2024 is translated at the average rate of exchange for the 12 months to 31 December 2025.

Effective from 1 January 2025, the Group's reporting segments under IFRS 8 'Operating Segments' comprise four businesses along with Corporate Centre:

1. Hong Kong
2. UK
3. Corporate and Institutional Banking
4. International Wealth and Premier Banking

These replace our previously reported operating segments up to 31 December 2024.

1 We have revised the adjustments made to average tangible equity for the purposes of computing our return on average tangible equity (‘RoTE’) excluding notable items measure. Prior to this, we adjusted average tangible equity for the average impact of notable items whereas from 2025 we no longer make adjustments to average tangible equity. Comparatives have been re-presented on the revised basis.

1 Banking NII for IWPB is computed by deducting third party net interest income ('NII') in our insurance business from total IWPB NII. Total insurance NII is presented in 'fee and other income' in Insurance in our Group Management View of Revenue.

2 'Other' includes revenue from Markets Treasury and hyperinflationary impacts. It also includes other non-product-specific income, and notional tax credits.

1 The reduction in loans and advances to customers includes the reclassification to 'financial investments measured at fair value through other comprehensive income' of a portfolio of home and other loans retained following the disposal of our retail banking operations in France. With effect from 1 January 2025 we reclassified this portfolio to a hold-to-collect and sell business model, measuring it at fair value through other comprehensive income.
