Butterfield US\$ Bond Fund Limited

FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

To the Shareholders:

We are pleased to present the Annual Report of the Fund for the twelve months ended June 30th 2022. The net asset value per share on the Class A shares, after dividend distributions and fees, decreased from \$11.00 to \$10.299 over the past year and dividends were paid at a rate of 8.35 cents per share. The Class B shares decreased from \$11.225 to \$10.51, after fees and dividends of 11.27 cents per share. Class C shares decreased from \$12.238 to \$11.59 over the financial year. Unlike Classes A and B, Class C is an accumulating share class and does not pay dividends.

On a total return basis after fees and including dividends, the Class A shares of the Fund delivered a return of -5.62% for the twelve months ended June 30th 2022. Owing to lower management fee structures, the Class B shares of the fund delivered a return of -5.36% over the same period, while Class C generated a return of -5.30%. All Classes outperformed the Fund's Benchmark Index, the BofA Merrill Lynch 1-5 Year AAA-A US Corporate and Government Index primarily due to the fund's exposure to corporate credit as credit spreads have widened in 2022.

The net asset value of the fund ended the financial year at \$124.2 million, increasing by 8% from the end of the previous financial year as several investors established new holdings in the fund. The Fund continues to benefit from a large and diversified shareholder base.

The Fund's disciplined and conservative investment style ensured that its AA-f bond fund credit rating and S2 bond fund volatility rating was again assigned by the officially recognized rating agency, Standard and Poor's.

Fund Review

This fiscal year has been extremely volatile with the Federal Reserve pivoting to an aggressive monetary policy in an effort to contain the highest inflation in forty years leading to a rare year of negative returns in both fixed income and equity markets. In addition, the Russian invasion of Ukraine has led to heightened risk premiums and firmer commodity prices which have amplified the pressure on central bankers globally. With little sign that headline or core inflation are abating and longer-term inflation expectations remaining firm policy makers have guided the market for the fastest pace of monetary tightening in decades. US base rates have be raised from 0.25% at the start of 2022 to 1.75% at the end of the fiscal year with market expectations that the terminal rate will reach 3.50% by the middle of 2023.

As a result, global bond yields have increased at a rapid rate with the risk-free US two-year Treasury now yielding over 3% with similar moves seen in other developed bond markets. The Federal Reserve is also acting to reduce the size of its US\$9th balance sheet and quantitative tightening has begun and is projected to reach US\$95bn per month by September. With European economies extremely weak due to the energy crisis and Chinese growth constrained by COVID-19 restrictions and an overvalued property market the US economy remains one of the only positive drivers of global growth however, with the US housing market now effectively closed as mortgage rates have risen above 6% the inevitable slowdown of the US economy has begun. The implications of these moves in global bond yields and sharp reduction in liquidity cannot be underestimated with the global economy now the closest to outright recession since March 2020.

As we enter the next fiscal year fund positioning remains neutral interest rate duration across the curve as we feel that the carry available now on short dated risk-free US Treasuries compensates for most realistic tail risk in the months ahead given global growth is slowing and inflation is likely to weaken in 2023. In corporate credit we remain neutral vs our benchmark on a credit duration basis and own little risk in the fund at this time, the weak performance of risk assets this year has subtracted from total return but we remain confident that the fund's current holdings are secure and see no risk of default in the months ahead. Credit spreads now look better value but before we look to increase the fund's allocation we need to see more concrete signs of a stabilization in global economic activity and/or a much more dovish Federal Reserve – both of these triggers are not in place at this time.

Fund duration at the end of June 2022 was 2.61 years which is 100% of the benchmark index, the overall credit quality of the fund is stable with an S&P rating of AA-. The fund also holds an allocation of 35.96% in nominal US Treasuries, 22.47% in high quality floating rate notes which are used to capture further rises in US base rates and minimize volatility as well as a cash balance of 6% for tactical opportunities.

Independent Auditor's Report

The Board of Directors Butterfield US\$ Bond Fund Limited

Opinion

We have audited the financial statements of Butterfield US\$ Bond Fund Limited (the Fund), which comprise the statement of financial position as at June 30, 2022, and the statement of comprehensive income, statement of changes in net assets attributable to holders of redeemable shares and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at June 30, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information Included in the Fund's 2022 Annual Report

Management is responsible for the other information. Other information consists of the information included in the Annual Report other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained the annual report prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Jessel Mendes.

1. CORPORATE INFORMATION

Butterfield US\$ Bond Fund Limited (the "Fund") is an open-ended investment company which was incorporated under the laws of Bermuda on May 26, 1992.

The Fund commenced operations on July 1, 1992. The Bank of N. T. Butterfield & Son Limited acts as custodian (the "Custodian" or the "Bank") to the Fund. Butterfield Asset Management Limited acts as investment adviser (the "Investment Adviser"). MUFG Fund Services (Bermuda) Limited acts as registrar and transfer agent and as accountants/administrator (the "Registrar and Transfer Agent" or "Administrator") for the Fund. The Investment Adviser is a wholly owned subsidiary of the Bank.

The registered address of the Fund is c/o MUFG Fund Services (Bermuda) Limited, Cedar House, 4th Floor North, 41 Cedar Avenue, Hamilton HM 12, Bermuda.

The Investment Adviser and the Custodian maintain separate business units, roles and responsibilities to ensure segregation between different functions.

The investment objective of the Fund is to maximise total returns whether through income or capital gains by investing in investment grade US Dollar denominated debt securities and other investments which may include US Dollar money market instruments and funds and bank time deposits. The Fund may also lend securities and write covered options on its portfolio in order to enhance its total return.

2. BASIS OF PREPARATION

Accounting convention

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Statements Board ("IASB"). The financial statements have been prepared on a historical-cost basis, except for financial assets held at fair value through profit or loss.

The financial statements are presented in United States Dollars, which is the functional currency of the Fund, and all values are rounded to the nearest dollar, except when otherwise stated.

Summary of significant accounting policies

a) Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with IFRS requires the Fund's management to make judgements, estimates and assumptions that affect the amounts reported and disclosures made in the financial statements, and accompanying notes. Management believes that the estimates and assumptions utilised in preparing the Fund's financial statements are reasonable and prudent. Actual results could materially differ from these estimates.

b) Financial instruments

i. Classification

In accordance with IFRS 9, the Fund classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

(a) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or

(b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking or

2. BASIS OF PREPARATION (CONTINUED)

Summary of significant accounting policies (continued)

b) Financial instruments (continued)

i. Classification (continued)

(c) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

Financial assets

The Fund classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets
- The contractual cash flow characteristics of the financial asset

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Fund includes in this category short-term non-financing receivables including cash collateral posted on derivative contracts, accrued income and other receivables.

Financial assets measured at fair value through profit or loss (FVPL)

A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding or
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell or
- (c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Fund includes in this category:

<u>Debt instruments</u>: These include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains.

<u>Instruments held for trading</u>: This category includes equity instruments and debt instruments which are acquired principally for the purpose of generating a profit from short-term fluctuations in price. This category also includes derivative contracts in an asset position.

2. BASIS OF PREPARATION (CONTINUED)

Summary of significant accounting polices (continued)

- b) Financial instruments (continued)
 - i. Classification (continued)

Financial liabilities

Financial liabilities measured at fair value through profit or loss (FVPL)

A financial liability is measured at FVPL if it meets the definition of held for trading.

The Fund includes in this category, derivative contracts in a liability position and equity and debt instruments sold short since they are classified as held for trading.

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Fund includes in this category other short-term payables.

Receivables and Loans

Receivables and Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. The Fund includes in this category collateral on derivatives, securities borrowed and other short-term receivables.

Other financial liabilities

This category includes all financial liabilities, other than those classified at FVPL. The Fund includes in this category collateral on derivatives, securities lent and other short-term payables.

ii. Recognition

The Fund recognises a financial asset or a financial liability when it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Fund commits to purchase or sell the asset.

iii. Initial measurement

Financial assets and financial liabilities at FVPL are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in profit or loss.

Financial assets and liabilities (other than those classified at FVPL) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

iv. Subsequent measurement

After initial measurement, the Fund measures financial instruments which are classified as FVPL, at fair value. Subsequent changes in the fair value of those financial instruments are recorded in net change in unrealised loss on financial assets at fair value through profit or loss in the statement of comprehensive income. Interest and dividends earned or paid on these instruments are recorded separately in interest revenue or expense and dividend revenue or expense in the statement of comprehensive income.

2. BASIS OF PREPARATION (CONTINUED)

Summary of significant accounting policies (continued)

b) Financial instruments (continued)

iv. Subsequent measurement (continued)

Financial liabilities, other than those classified at FVPL, are measured at amortised cost using the effective interest method ("EIR"). Gains and losses are recognised in the statement of comprehensive income when the liabilities are derecognised, as well as through the amortisation process.

The EIR is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating and recognising the interest income or interest expense in profit or loss over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instruments, but does not consider expected credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

v. Derecognition

A financial asset (or, where applicable, a part of a financial asset or a part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the asset have expired, or the Fund has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement and the Fund has:

(a) Transferred substantially all of the risks and rewards of the asset, or

(b) Neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Fund has transferred its right to receive cash flows from an asset (or has entered into a passthrough arrangement), and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Fund's continuing involvement in the asset. In that case, the fund also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the fund has retained.

The Fund derecognises a financial liability when the obligation under the liability is discharged, cancelled or expired.

c) Fair value measurement

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The fair value for financial instruments traded in active markets at the reporting date is based on their quoted price or dealer price quotations, without any deduction for transaction costs.

2. BASIS OF PREPARATION (CONTINUED)

Summary of significant accounting policies (continued)

c) Fair value measurement (continued)

It is the policy of the Fund to value any asset quoted, listed, traded or dealt with on an exchange or market by reference to the last traded price on or prior to the relevant Valuation Day on the major exchange or market in which the assets are dealt, to the extent that such valuation is based on a price within the bid-ask spread that is most representative of fair value on valuation date. In circumstances where the last traded price is not within the bid-ask spread, the Directors will determine the point within the bid-ask spread that is most representative of fair value.

The Directors at their absolute discretion may permit some other method of valuation to that described above if they consider such valuation better reflects the fair value of any investment.

d) Impairment of financial assets

The Fund holds only trade receivables with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply an approach similar to the simplified approach for expected credit losses (ECL) under IFRS 9 to all its trade receivables. Therefore the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. As at June 30, 2022 and 2021 the Fund had no ECLs and had, therefore, not recognised a loss allowance.

The Fund uses the provision matrix as a practical expedient to measuring ECLs on trade receivables, based on days past due for groupings of receivables with similar loss patterns. Receivables are grouped based on their nature. The provision matrix is based on historical observed loss rates over the expected life of the receivables and is adjusted for forward-looking estimates.

e) Functional and presentation currency

The Fund's functional currency is the US Dollar (US\$), which is the currency of the primary economic environment in which it operates. The Fund's performance is evaluated and its liquidity is managed in US Dollars. Therefore, the US\$ is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The Fund's presentation currency is also the US\$.

f) Offsetting and financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Management has determined that, as at June 30, 2022 and 2021, there were no assets and liabilities offset in the statement of financial position, nor were there any assets or liabilities available for offset. The Fund does not have a legally enforceable right to offset, nor does it have master netting agreements or similar arrangements that would allow for related amounts to be set off.

g) Foreign currency translations

Assets and liabilities that are denominated in foreign currencies are translated into US dollars at rates of exchange on the period end date. Transactions during the period are translated at the rate in effect at the date of the transaction. Foreign currency translation gains and losses are included in the statement of comprehensive income.

The Fund does not isolate that portion of gains and losses on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included in the net realised and change in unrealised gain/(loss) on investments in the statement of comprehensive income.

2. BASIS OF PREPARATION (CONTINUED)

Summary of significant accounting policies (continued)

h) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and short-term deposits in banks that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less. The money market fund comprises investments in Butterfield Money Market Fund Limited of \$122,545 (2021: \$122,372). As at June 30, 2022 and 2021, there was no restricted cash held.

i) Due from and due to broker

Amounts due from and to brokers represents cash held with brokers and receivables for securities sold and payables for securities purchased that have been contracted for but not settled or delivered on the statement of financial position date, respectively. These amounts are recognized at fair value.

j) Interest income and expense

Interest income and expense are recognized in the statement of comprehensive income for all interestbearing financial instruments using the EIR.

k) Realised and change in unrealised gains and losses

Realised and change in unrealised gains/(losses) on financial assets at fair value through profit or loss are recognised in the statement of comprehensive income. The cost of investments sold is accounted for using the average cost basis.

I) Expenses

All expenses (including management fees) are recognized in the statement of comprehensive income on an accrual basis.

m) Going concern

The Fund's management has assessed the Fund's ability to continue as a going concern and is satisfied that the Fund has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Fund's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

n) Share capital

The Fund's Organisational Shares are classified as equity in accordance with the Fund's articles of association and IFRS. These shares do not participate in the profits of the Fund.

o) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The redeemable participating shares can be put back to the Fund on any dealing day (normally the next business day following the Valuation Day, which is on Wednesday in each week) at a value equal to a proportionate share of the Fund's net asset value ("NAV"). The Fund's net asset value per share is calculated by dividing the net assets attributable to holders of redeemable shares with the total number of outstanding redeemable shares.

p) Investment entity

IFRS 10 defines an investment entity and requires a reporting entity that meets the definition of an investment entity not to consolidate but instead to measure its investments at fair value through profit or loss in its financial statements.

2. BASIS OF PREPARATION (CONTINUED)

Summary of significant accounting policies (continued)

p) Investment entity (continued)

To qualify as an investment entity, a reporting entity is required to:

- Obtain funds from one or more investors for the purpose of providing them with investment management services;
- Commit to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- Measure and evaluate performance of substantially all of its investments on a fair value basis.

Management has determined that the Fund meets the definition of an investment entity and recognizes all investments at fair value through profit and loss.

q) Impact of new accounting pronouncements

For the year ended June 30, 2022, there are no new accounting pronouncements that are expected to have a material impact on the financial statements.

3. FINANCIAL RISK MANAGEMENT

The Fund's overall risk management approach includes formal guidelines to govern the extent of exposure to various types of risk. The Investment Adviser also has various internal controls to oversee the Fund's investment activities, including monitoring compliance with the investment objective and strategies, internal guidelines and securities regulations.

Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The value of such securities on the statement of portfolio investments includes consideration of the creditworthiness of the issuer, and, accordingly represents the maximum credit risk exposure of the Fund.

Credit ratings below represent ratings of debt securities provided by Standard & Poor's and are subject to change, which could be material.

	% of Portfolio		
Debt Securities by Credit Rating	2022	2021	
AAA	9.57	8.16	
AA+	52.27	34.27	
AA-	7.04	8.85	
AA	-	1.01	
A+	9.13	15.50	
A-	12.16	14.77	
A	3.83	10.16	
BBB	0.97	1.17	
BBB+	5.03	6.11	
	100.00	100.00	

For debt securities not rated by Standard & Poor's, the credit ratings provided by Moody's would be presented instead. As at June 30, 2022 and June 30, 2021, the Fund held no debt securities not rated by Standard & Poor's.

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

Credit Risk (continued)

Substantially all of the assets of the Fund are held by the Fund's Custodian. The Fund monitors its risk by monitoring the credit quality of the Custodian. As at June 30, 2022, the credit rating of the Custodian, as provided by Standard and Poor's, was BBB+ (2021 - BBB+).

Currency Risk

Currency risk is the risk that the value of an investment will fluctuate due to changes in foreign exchange rates. When the Fund enters into transactions which are denominated in currencies other than the Fund's reporting currency the Investment Adviser attempts to mitigate the associated currency risk which may include the use of forward currency contracts. As at June 30, 2022 and 2021, the Fund's exposure to currencies other than the Fund's reporting currency was not significant; thus, any risks associated are likewise not significant to the Fund as a whole.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Prices of fixed income securities generally increase when interest rates decline, and decrease when interest rates rise. The Fund is exposed to these fluctuations through their holdings of fixed income securities. As at June 30, 2022, had the interest rates increased or decreased by 25 basis points and assuming a direct impact to the net assets by 25 basis points, net assets would have decreased or increased by approximately \$310,386 (2021 - \$287,555). This change is estimated using the weighted average duration of the fixed income portfolio. This analysis assumes that all other variables remained unchanged. In practice, actual results may differ from this analysis and the difference could be material.

Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities. The Fund is exposed to liquidity risk by way of weekly cash redemptions of redeemable shares. However, the Fund retains sufficient cash, cash equivalents and marketable securities to maintain adequate liquidity to address this risk. The Fund also has a credit facility in place to assist the Fund in meeting short term liquidity requirements.

The table below indicates the Fund's holdings in fixed income securities by remaining term to maturity:

	Fair Value			
Debt Securities by Maturity	2022		2021	
Less than 1 year	\$ 21,407,479	\$	15,957,182	
1 - 3 years	28,637,752		20,917,559	
3 - 5 years	25,533,506		31,640,359	
Greater than 5 years	41,333,973		36,815,947	
	\$ 116,912,710	\$	105,331,047	

Price/Market Risk

Price/market risk is the risk that the value of investments will fluctuate as a result of market conditions. The Fund is exposed to price/market risk on its holdings of fixed income securities as discussed in the Interest Rate Risk section above. The Investment Adviser attempts to mitigate price/market risk by selecting appropriate portfolio investments based on the Fund's strategy.

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

Financial risk related to COVID-19

The Investment Adviser continues to monitor developments related to the COVID-19 pandemic and the potential impact on the financial performance of the Fund. The Investment Adviser has evaluated the impact of these events on the financial statements for the year ended June 30, 2022 and has determined the impact of COVID-19 has been taken into account where necessary and no material events have been identified which would require further adjustment to or disclosure in the financial statements.

4. FAIR VALUE OF FINANCIAL ASSETS

The following provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices included within Level 1 that are market observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs for the asset or liability that are not based on observable market data, including the Fund's own assumptions in determining the fair value of investments.

All of the Fund's investments are classified as follows for the years ended June 30, 2022 and 2021.

June 30, 2022

Classification	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
Financial assets				
Corporate and government				
debt securities	-	100,290,536	-	100,290,536
Mortgage-backed securities	-	16,622,174	-	16,622,174
Total financial assets	-	116,912,710	-	116,912,710

June 30, 2021

Classification	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
Financial assets				
Corporate and government				
debt securities	-	101,184,527	-	101,184,527
Mortgage-backed securities	-	4,146,520	-	4,146,520
Total financial assets	-	105,331,047	-	105,331,047

Financial assets and liabilities transferred from Level 1 to Level 2 are the result of the securities no longer being traded in an active market. There were no transfers of financial assets and liabilities from Level 1 to Level 2 during the years ended June 30, 2022 and 2021. Financial assets and liabilities transferred from Level 2 to Level 1 are the result of the securities now being traded in an active market. There were no transfers of financial assets and liabilities from Level 2 to Level 1 are the result of the securities now being traded in an active market. There were no transfers of financial assets and liabilities from Level 2 to Level 1 are the result of the securities now being traded in an active market. There were no transfers of financial assets and liabilities from Level 2 to Level 1 during the years ended June 30, 2022 and 2021. The Fund did not hold any Level 3 investments at the beginning, during, or at the end of the years ended June 30, 2022 and 2021.

5. SHARES ISSUED AND OUTSTANDING

As at June 30, 2022 and June 30, 2021, the authorised share capital of the Fund is \$2,512,000 divided into:

8,300,000 Class A participating, non-voting redeemable shares of a par value of \$0.10 each share, 8,300,000 Class B participating, non-voting redeemable shares of a par value of \$0.10 each share, 8,400,000 Class C participating, non-voting redeemable shares of a par value of \$0.10 each share, and 120,000 (2021 - 120,000) organisational non-participating, voting shares of a par value of \$0.10 each share.

Details of number of shares issued and outstanding as of June 30, 2022 and 2021 are as follows:

		2022			2021	
Redeemable Shares	Class A	Class B	Class C	Class A	Class B	Class C
Balance - beginning of year	1,197,800	7,992,765	991,129	815,042	7,593,586	999,565
Issue of redeemable shares	454,376	1,235,159	407,964	442,447	1,168,373	-
Redemption of redeemable shares	(110,731)	(468,053)	-	(59,689)	(769,194)	(8,436)
Balance - end of year	1,541,445	8,759,871	1,399,093	1,197,800	7,992,765	991,129
Organisational Shares	120,000	-	-	120,000	-	-

Redeemable shares are allotted to subscribers at a value determined by reference to the weekly valuation of the net assets of the Fund. Redeemable shares may be redeemed weekly for an amount equal to the net asset value per share as at the close of business on the Valuation Day, following receipt of the properly completed request for redemption, subject to the power of the directors to deduct there from an amount sufficient in their opinion to meet sale and fiscal charges incurred in realising assets to provide funds to meet the request.

The Class A, Class B and Class C shares have different minimums set for investors to subscribe to them, and there are differences in the management fees payable to the Investment Adviser in respect of such shares (see Note 7a).

The organisational shares are allocated to the Investment Adviser and its nominees. Under the By-Laws the organisational shares have only nominal rights if and so long as there are any other shares of the Fund in issue.

Capital Management

As a result of the ability to issue, repurchase and resell shares, the capital of the Fund can vary depending on the demand for redemptions and subscriptions to the Fund. The Fund is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable shares beyond those included in the Fund's Prospectus.

6. DIVIDENDS

Dividends declared by the Fund on Class A and B shares were as follows:

		2022				2021	
Class A	Class B	Declaration date	Amount	Class A	Class B	Declaration date	Amount
0.0193	0.0268	Sep 30, 2021	\$246,180	0.0245	0.0321	Sep 30, 2020	\$265,844
0.0181	0.0254	Dec 31, 2021	233,970	0.0212	0.0285	Dec 31, 2020	247,451
0.0192	0.0264	Mar 31, 2022	258,332	0.0212	0.0285	Mar 31, 2021	255,350
0.0269	0.0341	Jun 30, 2022	340,177	0.0212	0.0285	Jun 30, 2021	253,187
			\$1,078,659				\$1,021,832

7. RELATED PARTY TRANSACTIONS

a) Management Fee

The Investment Adviser is related to the Fund through common directorship.

Under the terms of the investment advisory agreement, the Investment Adviser is entitled to receive a monthly fee calculated at the rate of no more than 1% per annum of the average valuation of the net assets of the Fund carried out on the Valuation Days during each month. Presently, the monthly fee is calculated at the rate of 0.5% (2021 - 0.5%) per annum for the Class A shares and 0.25% (2021 - 0.25%) per annum for the Class B shares, and 0.25% (2021 - 0.25%) maximum per annum for the Class C shares. The fee of the Investment Adviser is reduced to take account of the management fee already levied on assets held in shares of other funds managed by the Investment Adviser. The fee of the Investment Adviser is also reduced for Class C shares, in order to meet an expense cap of 0.35% related to Class C Shares. Management fee for the year was \$329,920 (2021 - \$295,428) with \$33,040 (2021 - \$29,271) being payable and included in accrued expenses at year end.

b) Custodian Fee

In accordance with the custodian agreement, the Custodian receives a fee based upon the nature and extent of the services provided. Relevant out-of-pocket expenses may also be charged to the Fund by the Custodian. The Custodian fee for the year was \$57,653 (2021 - \$51,050) with \$5,790 (2021 - \$4,933) being payable and included in accrued expenses at year end.

c) Credit Facility

On September 30, 2021 (2021 - August 7, 2020), the Fund renewed the unsecured credit facility agreement with the Bank in the amount of \$12,000,000 (2020 - \$12,000,000). The agreement bears an interest rate of the United States Dollar Prime Rate minus 1%, subject to a minimum rate of 2%. The full amount of any amount advanced under the revolving facility, together with the accrued interest and other amounts payable by the Fund to the Bank, is payable on the earlier of seven days following the utilization date or the expiry date, unless extended at the Bank's sole discretion and the advances will be limited to 10% of the Fund's net asset value. If any payment falls due and payable on a day which is not a business day the payment shall be made on the next following business day. The renewed unsecured facility expired on June 30, 2022 (2021 - June 30, 2021).

On July 22, 2022, the Fund renewed the unsecured credit facility agreement with the Bank. The interest rate changed to 1% per annum above the funding cost incurred by the Bank in making the revolving facility available on any drawdown date. The other terms remain unchanged from the previous agreement. The renewed unsecured facility expires on June 30, 2023. As at June 30, 2022 and 2021 no drawings were made on the credit facility.

8. ADMINISTRATION FEE

In accordance with the administration agreement, the Administrator receives a fee based upon the nature and extent of the services provided. Administration fee for the year was \$166,790 (2021 - \$151,976) with \$16,506 (2021 - \$38,967) being payable and included in accrued expenses at the year end.

9. TAXATION

Under current Bermuda law, the Fund is not obligated to pay taxes in Bermuda on either income or capital gains. The Fund has received an undertaking from the Minister of Finance in Bermuda, pursuant to the provisions of the exempted undertaking Tax Protection Act, 1966 which exempts the Fund from any such Bermuda taxes until March 28, 2016.

9. TAXATION (CONTINUED)

In March 2011, the Bermuda Government enacted the Exempted Undertakings Tax Protection Amendment Act 2011 allowing the Minister of Finance to grant assurance up to March 31, 2035. On January 29, 2015 the Minister of Finance granted assurance to the Fund up to that date.

In accordance with IFRIC 23 'Uncertainty over income tax treatments' ("IFRIC 23"), the Fund has analysed its tax positions and has concluded that no asset/liability for unrecognised tax benefits/obligations should be recorded relating to uncertain tax positions for the year ended June 30, 2022. Currently, the only taxes recorded by the Fund are withholding taxes applicable to certain income. For the year ended June 30, 2022 and 2021 no other income tax liability or expense has been recorded in the accompanying financial statements.

10. COMMITMENTS AND CONTINGENCIES

Management has determined that the Fund had no commitments or contingencies as at June 30, 2022 (2021 - none).

11. SUBSEQUENT EVENTS

The Fund has evaluated all the events or transactions that occurred after June 30, 2022 through November 23, 2022, the date the financial statements were available to be issued, and concluded that there are no subsequent events requiring disclosure in the financial statements.

12. FINANCIAL HIGHLIGHTS

		2022			2021	
Per Share Information	Class A	Class B	Class C	Class A	Class B	Class C
Net asset value - beginning of year	11.000	11.225	12.239	11.007	11.231	12.105
Income from investment operations						
Net investment income****	0.078	0.108	0.130	0.109	0.140	0.164
Net realised & change in unrealised loss on						
investments	(0.696)	(0.710)	(0.779)	(0.028)	(0.028)	(0.030)
Total (loss)/income from investment						
operations	(0.618)	(0.602)	(0.649)	0.081	0.112	0.134
Distributions to investors	(0.083)	(0.113)	-	(0.088)	(0.118)	-
Net asset value - end of year	10.299	10.510	11.590	11.000	11.225	12.239
Ratios / Supplemental Data						
Total net assets - end of year (in thousands)	\$15,876	\$92,063	\$16,216	\$13,176	\$89,716	\$12,130
Weighted average net assets (in thousands)*	\$15,082	\$92,381	\$16,370	\$11,804	\$88,231	\$12,133
Ratio of expenses to average net assets	0.76%	0.51%	0.25%	0.76%	0.52%	0.23%
Portfolio turnover rate**	21.78%	21.78%	21.78%	39.07%	39.07%	39.07%
Annual rate of return***	(5.62)%	(5.36)%	(5.30)%	0.74%	0.99%	1.10%

* Weighted average net assets are calculated using net assets on the last valuation date of each month.

** Portfolio turnover rate is calculated using the lesser of purchases or sales of investments for the year divided by the weighted average value of investments, calculated using the last valuation date of each month.

*** Annual rate of return for shareholders who reinvested dividends is calculated by comparing the end of year net asset value per share plus any dividend per share amounts to the beginning of year net asset value per share.

****Net investment income represents interest income net of expenses.

13. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the Directors on November 23, 2022.
