Financial Statements
(With Independent Auditor's Report Thereon)

December 31, 2024

June 27, 2025

Report of Independent Auditors

To the Board of Directors of Global Voyager Funds Limited and Shareholders of Global Fixed Income Fund, Preferred Equity Fund, North American Founders Fund, Small Cap Growth Fund, International Equity Fund, Managed Balance Fund, High Yield Bond Fund, Global Voyager Alternative Investment Fund and Insurance Linked Securities Fund (each a segregated account of Global Voyager Funds Limited)

Opinion

We have audited the accompanying financial statements of Global Fixed Income Fund, Preferred Equity Fund, North American Founders Fund, Small Cap Growth Fund, International Equity Fund, Managed Balance Fund, High Yield Bond Fund, Global Voyager Alternative Investment Fund and Insurance Linked Securities Fund (each a segregated account of Global Voyager Funds Limited and hereafter collectively referred to as the "Funds"), each of which comprise the statements of financial position, as of December 31, 2024 and 2023 and the related statements of comprehensive income, of changes in net assets attributable to holders of redeemable shares, and of cash flows, including the related notes for the years then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of each of the Funds as of December 31, 2024 and 2023 and the results of each of their operations, changes in each of their net assets, and each of their cash flows for the years then ended in accordance with IFRS Accounting Standards.

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We are required to be independent of the Funds and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing each Fund's ability to continue as a going concern for at least, but not limited to, twelve months from the end of the reporting period, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about each Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***1. Incorporation and principal activities**

Global Voyager Funds Limited (the “Company”) is a limited liability open-ended exempted mutual fund company of unlimited duration incorporated under the laws of Bermuda with registration number 50358 on June 12, 2015. The Company is a Bermuda Standard Fund under the Investments Funds Act 2006 and registered as a segregated accounts company (“SAC”) pursuant to the SAC Act. Each of the segregated accounts constitutes a separate fund with its own underlying investment strategy (each a “Fund” and collectively - the “Funds”). A segregated account is not a legal entity that is separate from the Company. As at December 31, 2024 nine (2023: nine) Funds are in issue. The Funds constituted as segregated funds are the Global Fixed Income Fund, the Preferred Equity Fund, the North American Founders Fund, the Small Cap Growth Fund, the International Equity Fund, the Managed Balance Fund, the High Yield Bond Fund, the Global Voyager Alternative Investment Fund and the Insurance Linked Securities Fund.

Each Fund is represented by a separate and distinct segregated account within which all assets and liabilities attributable to that Fund are held and kept segregated from the assets and liabilities of each other Fund and from the general assets and liabilities of the Company. The Funds are linked to the class of shares as summarized below:

Segregated accounts	Linked to the class of shares
Global Fixed Income Fund	Global Fixed Income Shares
Preferred Equity Fund	Preferred Equity Shares
North American Founders Fund	North American Founders Shares
Small Cap Growth Fund	Small Cap Growth Shares
International Equity Fund	International Equity Shares
Managed Balance Fund	Managed Balance Shares
High Yield Bond Fund	High Yield Bond Shares
Global Voyager Alternative Investment Fund	Global Voyager Alternative Investment Class A US\$ Shares
Insurance Linked Securities Fund	Insurance Linked Securities Shares

These financial statements are for the Funds’ operations only and not for the Company, its general assets and liabilities or other segregated portfolios.

The investment objectives and corresponding strategies of each Fund are summarized as follows:

(a) Global Fixed Income Fund

The investment objective of the Fund is to seek maximum total return. The portfolio attributable to these shares (the “Global Fixed Income Portfolio”) is invested in a managed portfolio consisting primarily of debt securities of, or securities supported by, governmental entities through investment in mutual funds.

(b) Preferred Equity

The investment objective of the Fund is to seek long term capital appreciation and high current income. The portfolio attributable to these shares (the “Preferred Equity Portfolio”) is invested in a managed portfolio consisting of traditional preferred, redeemable preferred, trust preferred and exchange traded debt securities as well as over-the-counter debt securities of companies with investment grade or higher credit ratings.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***1. Incorporation and principal activities** (continued)**(c) North American Founders Fund**

The investment objective of the Fund is to seek long term total return. The portfolio attributable to these shares (the “North American Founders Portfolio”) is invested primarily in a managed portfolio of equity securities of North American issuers. The portfolio may invest in other regions and in other financial instruments in addition to equity securities.

(d) Small Cap Growth Fund

The portfolio attributable to these shares (the “Small Cap Growth Portfolio”) is invested in a managed portfolio consisting of publicly traded equity, debt or hybrid securities through investment in mutual funds. The Small Cap Growth Portfolio investment strategy invests in three different types of growth in the portfolio: (i) Mispriced growth companies are believed to offer an unrecognized or under-appreciated growth dynamic over the ensuing two to three-year period. This category has tended to do best in rising markets and generally makes up 50–70% of the portfolio. (ii) ‘Steady eddies’ are companies believed to add value by providing stability to the portfolio in falling markets. They tend to have stable growth characteristics; non-cyclical industries, slower but more predictable revenues and earnings patterns and are generally 20–50% of the portfolio. (iii) Turnaround companies are believed to have catalysts in place that could return the company growth. This category provides potential added value to the portfolio but it is also our riskiest category and is generally less than 20% of the portfolio. Companies within these three categories tend to display low correlation to each other, offering diversification and the ability to reduce overall portfolio volatility.

(e) International Equity Fund

The portfolio attributable to these shares (the “International Equity Portfolio”) is invested in a managed portfolio of publicly traded equity securities. The International Equity Portfolio investment strategy is based on a quality and value-driven, absolute return approach. They do not invest in any country which does not satisfy their minimum requirements in relation to accounting standards, investor protection and political stability. The asset allocation and country allocation decision is determined through their five year earnings projections for fixed income and equity markets in their universe determining relative value across markets.

(f) Managed Balance Fund

The investment objective of the Fund is to seek medium to long term capital and income appreciation through investments across the major global asset classes. The portfolio attributable to these shares (the “Managed Balance Portfolio”) is invested in a managed portfolio consisting of a mixture of fixed income, global equities and alternative offshore mutual funds and securities.

(g) High Yield Bond Fund

The investment objective of the Fund is high current income and capital appreciation through investments in high yield securities of U.S. issuers. The portfolio attributable to these shares (the “High Yield Bond Portfolio”) is invested in a managed portfolio of high yield securities of U.S issuers.

(h) Global Voyager Alternative Investment Fund (GVAIF)

The investment objective of the Fund is to achieve attractive long-term capital appreciation with limited draw-downs and low correlation to traditional global markets. The portfolio attributable to these shares (the “Global Voyager Alternative Investment Portfolio”) is invested in global markets implementing a variety of investment strategies primarily via investment in investment funds and products offering an exposure to these markets.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***1. Incorporation and principal activities** (continued)**(h) Global Voyager Alternative Investment Fund (GVAIF)** (continued)

Investment strategies which may be considered are:

(i) **Global Trading** – typically trade and invest on a worldwide basis in global fixed income, currency, commodity and equity markets and their related derivatives;

(ii) **Multi-Strategy/Event-Driven** – seek to profit from inefficiencies and disparities via trading and investing in various strategies including, but not limited to, arbitrage, event-driven, convertible bond, corporate restructurings, distressed and bankruptcy;

(iii) **Global Equity** – are equity long short managers that principally select stocks through the use of fundamental bottom-up stock picking;

Other strategies, which the Directors consider appropriate, may be added from time to time.

As at December 31, 2024, the Global Voyager Alternative Investment Fund invested in The Campbell Offshore Fund Limited SPC - Class I, Davidson Kempner International (BVI) LTD - Class C and Caxton Global Investments Limited - Class T (the “Investee funds”). As at December 31, 2023, the Global Voyager Alternative Investment Portfolio invested in The Campbell Offshore Fund Limited SPC - Class I, Davidson Kempner International (BVI) LTD - Class C and Caxton Global Investments Limited - Class T. The Davidson Kempner International Limited is a closed-ended investment company with limited liability incorporated under the laws of British Virgin Islands. The Caxton Global Investments Limited is a closed-ended investment company with limited liability incorporated under the laws of United States of America. The Campbell Offshore Fund Limited SPC is a Cayman Islands segregated portfolio company.

(i) Insurance Linked Securities Fund

The investment objective of the Fund is to achieve attractive risk-adjusted returns that are demonstrably uncorrelated with traditional asset classes by investing, directly and indirectly, in a diversified portfolio of insurance-linked investments in catastrophe risk markets (ILS) and other investments in catastrophe risk markets, with a particular focus on natural catastrophe risks, and through direct or indirect investments in reinsurance vehicles that write reinsurance or retrocession contracts. The Fund does not currently, but may in the future, trade other instruments, either directly or indirectly, to achieve its objective including, but not limited to derivatives, such as swaps, options and other instruments.

The Fund’s portfolio of insurance-linked securities will primarily focus on catastrophe bonds (**Cat bonds**), traditional or collateralised reinsurance investments (**RI**), industry loss warranty (**ILW**) contracts, and side cars.

(i) **Cat Bonds** – Cat Bonds are investments that transfer risk from an issuer (such as an insurance company or a reinsurance company) to capital markets investors. They are often structured as floating rate bonds whose principal is lost if specified trigger conditions are met. Cat Bonds may be structured as derivatives that are triggered by amounts actually lost by the protected counterparty, modeled losses, losses incurred by a specified industry, one or more event parameters or combinations of the foregoing. Certain Cat Bonds may cover the risk that multiple loss events will occur.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***1. Incorporation and principal activities** (continued)**(i) Insurance Linked Securities Fund** (continued)

(ii) **Traditional or collateralised reinsurance** – Collateralised reinsurance contracts are private transactions whereby the reinsurer assumes the risk associated with an insurance company's ultimate net losses ("UNL") in exchange for up-front premium payments. While essentially the same as traditional reinsurance, a unique feature of these contracts is that the full limit of the policy is posted in a trust account, and hence collateralised, to eliminate credit risk for the counterparty.

(iii) **Industry Loss Warranties (ILW)** – ILWs are a type of short-term reinsurance contract whereby one party agrees to a set payment to its counterparty if insurance industry losses, as determined by an independent, third-party assessor, exceed a specified trigger amount.

(iv) **Side cars** – Reinsurance sidecars are financial structures, typically referred to as special purpose vehicles (SPVs) or special purpose insurers (SPIs), established to allow third party investors to take on a pro-rata exposure to the risk and returns of a single traditional reinsurer's portfolio.

Other strategies, which the Directors consider appropriate for Insurance Linked Securities Fund, may be added from time to time.

As at December 31, 2024, the Insurance Linked Securities Fund invested in Juniperus Insurance Opportunity Fund Limited - Class D and Class S, NB Insurance-Linked Strategies Fund LP - Interest - Class A (the "Investee funds") and United States Treasury bill (the "Bonds"). As at December 31, 2023, the Insurance Linked Securities Fund invested in Juniperus Insurance Opportunity Fund Limited – Class D, Juniperus Insurance Opportunity Fund Limited – Class S and NB Insurance-Linked Strategies Fund L Class A.

The Company has entered into an investment advisory agreement with Clarien Investments Limited (the "Manager"), a limited liability company incorporated under the laws of Bermuda on May 27, 1997 and holding an investment management license issued by the Bermuda Monetary Authority.

On April 1, 2018, the Company appointed Apex Fund Services Limited (the "Administrator"), Bermuda, as Administrator.

2. Basis of preparation**(a) Statement of compliance**

The financial statements of the Funds as at and for the year ended December 31, 2024 have been prepared in accordance with IFRS Accounting Standards.

The financial statements were authorized for issue by the Board of Directors on June 27, 2025.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for financial instruments at fair value through profit or loss ("FVTPL"), which are measured at fair value.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***2. Basis of preparation** (continued)**(c) Functional and presentation currency**

These financial statements are presented in US dollars, which is the Funds' functional currency.

(d) Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The key judgement made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is as follows:

Valuation

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is provided in Notes 3(a) and 4.

3. Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, unless otherwise indicated.

(a) Financial assets and financial liabilities**i. Recognition and initial measurement**

Financial assets and financial liabilities at FVTPL are recognized initially on the trade date at which the Funds become a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognized on the date they are originated.

Financial assets and financial liabilities at FVTPL are measured initially at fair value, with transaction costs recognized in the statements of comprehensive income.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)**(a) Financial assets and financial liabilities** (continued)**ii. Classification****Assets**

The Funds classify their investments based on both the Funds' business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The Funds have not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Funds' debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business model's objective. Consequently, all investments are measured at fair value through profit or loss.

Liabilities

The Funds make short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are held for trading and are consequently classified as financial liabilities at fair value through profit or loss. Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, each Fund classifies all of its investment portfolio as financial assets or liabilities as fair value through profit or loss.

The Funds' policies require the Investment Manager and the Board of Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

iii. Derecognition

The Funds derecognise a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Funds neither transfer nor retain substantially all the risks and rewards of ownership and do not retain control of the financial asset. Any interest in such transferred financial assets that qualify for derecognition that is created or retained by the Funds is recognized as a separate asset or liability in the statements of financial position.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised), and the consideration received is recognised in the statements of comprehensive income.

The Funds derecognise a financial liability when their contractual obligations are discharged or cancelled or expire.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)**(a) Financial assets and financial liabilities** (continued)**iv. Amortised cost measurement**

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

v. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Funds have access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Funds measure the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Funds measure instruments quoted in an active market at bid price.

If there is no quoted price in an active market, then the Funds use valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

If a market for a financial instrument is not active, then the Funds establish fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties (if they are available), reference to the current fair value of other instruments that are substantially the same, discounted cash flow analyses and option pricing models. The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to the Funds, incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Inputs to valuation techniques reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument. The Funds calibrate valuation techniques and tests them for validity using prices from observable current market transactions in the same instrument or based on other available observable market data. These prices may differ from the value that would have been used had a broader market for the securities existed.

Fair values for fixed income securities are obtained from independent pricing sources. The independent pricing sources obtain actual transaction prices for securities that have quoted prices in active markets and have their own proprietary methods for determining the fair value of securities that are not actively traded. In general, the independent pricing sources use "matrix pricing" which utilises observable market inputs including, but not limited to, broker quotes, interest rates, yield curves, prepayment speeds, default rates and such other inputs as are available from market sources to determine a reasonable fair value.

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)(a) **Financial assets and financial liabilities** (continued)**v. Fair value measurement** (continued)

The fair values of investments in mutual funds are based on the latest available unaudited net asset values which are obtained from the administrators of such funds. If these are not available, reference is made to the latest estimated net asset values issued by such investment funds and adjustments are made to determine a fair value using a valuation technique. As at December 31, 2024, investments in mutual funds were valued based on their published net asset value.

The GVAIF's investments and Insurance Linked Securities Fund investments in the Investee funds are subject to the terms and conditions of the Investee funds offering documentation. The Investee funds are not traded in an active market. The investments in the Investee funds are valued based on the latest available redemption price of such units for the underlying investments, as determined by their administrators. The GVAIF and Insurance Linked Securities Fund reviews the details of the reported information obtained from the Investee funds and may make adjustments to the value based on the following considerations:

- the liquidity of the Investee funds or its underlying investments;
- the value date of the net asset value ("NAV") provided;
- any restrictions on redemptions; and
- the basis of accounting and, in instances where the basis of accounting is other than fair value, fair valuation information provided by the Investee funds advisors.

If necessary, the GVAIF and Insurance Linked Securities Fund make adjustments to the NAV of the Investee funds to obtain the best estimate of fair value. Other net changes in fair value on financial assets and financial liabilities at FVTPL in the statements of comprehensive income include the change in fair value of the Investee funds.

As at December 31, 2024, 100% (2023: 100%) of financial assets at FVTPL held by GVAIF comprise investments in the Investee funds and 98.1% (2023: 100%) of financial assets at FVTPL held by Insurance Linked Securities Fund comprise investments in the Investee funds that have been fair valued in accordance with the policies set out above and at year end the GVAIF and Insurance Linked Securities Fund have made no adjustment to the NAV of the Investee funds. The shares of the Investee funds are not publicly traded; redemption can only be made by the GVAIF and Insurance Linked Securities Fund on the redemption dates and subject to the required notice periods specified in the offering documents of the Investee funds. The frequency to which the GVAIF has a right to request redemption of its investments in the Investee funds is once each quarter and the frequency to which Insurance Linked Securities Fund has a right to request redemption of its investments in the Investee fund is semi-annually. As a result, the carrying values of the Investee funds may not be indicative of the values ultimately realised on redemption. In addition, the GVAIF and Insurance Linked Securities Fund's share classes may be materially affected by the actions of other investors who have invested in the Investee funds in which the GVAIF and Insurance Linked Securities Fund have invested.

The Investee funds are managed by portfolio managers who are compensated by the Investee funds for services. Such compensation generally consists of an asset-based fee and a performance-based incentive fee. Such compensation is reflected in the valuation of the GVAIF's and Insurance Linked Securities Fund's investments in the Investee funds.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)(a) **Financial assets and financial liabilities** (continued)**v. Fair value measurement** (continued)

The Funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred. There were no transfers between levels for the year ended December 31, 2024 and 2023 (where applicable).

All changes in fair value, other than interest and dividend income are recognised in the statements of comprehensive income as net gain (loss) from financial instruments at fair value through profit or loss.

vi. Impairment

Under IFRS 9, loss allowances are measured on either of the following bases.

- 12-month ECLs (Expected Credit Losses): these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Funds measure loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12 month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Funds consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Funds' historical experience and informed credit assessment and including forward looking information.

The Funds assume that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Funds consider a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Funds in full, without recourse by the Funds to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Funds consider a financial asset to have low credit risk when the credit rating of the counterparty is equivalent to the globally understood definition of 'investment grade'.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Funds are exposed to credit risk.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

(Expressed in U.S. dollars)

3. Material accounting policies (continued)**(a) Financial assets and financial liabilities** (continued)**vi. Impairment** (continued)*Measurement of ECLs*

ECLs are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Funds expect to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit impaired financial assets

At each reporting date, the Funds assess whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due; or
- it is probable that the borrower will enter bankruptcy or other financial reorganisation

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write off

The gross carrying amount of a financial asset is written off when the Funds have no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)(a) **Financial assets and financial liabilities** (continued)**vii. Due from and due to brokers**

Amounts due from and to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from brokers balance is held for collection.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

viii. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Funds have a legally enforceable right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis for gains and losses from financial instruments at FVTPL and foreign exchange gains and losses.

ix. Segment Reporting

The Company offers nine (2023: nine) Funds of shares, being Global Fixed Income, Preferred Equity, North American Founders, Small Cap Growth, International Equity, Managed Balance, High Yield Bond, Global Voyager Alternative Investment and Insurance Linked Securities.

Each Fund constitutes a single reportable segment, which entail different investment objectives and strategies and contain investments in different products.

For each Fund, separate books of accounts, bank accounts, custody and broker accounts are maintained. Moreover, each class has its own Investment Manager appointed to manage its individual strategies.

For each Fund, a separate statement of financial position, statement of comprehensive income, statement of changes in net assets attributable to holders of redeemable shares and statement of cash flows have been prepared and presented in these financial statements.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)**(b) Structured entities**

The GVAIF and Insurance Linked Securities Fund have investments in the Investee funds which are considered investments in unconsolidated structured entities.

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (i) restricted activities, (ii) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (iii) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (iv) financing in the form of multiple contractually linked instruments to investors that creates concentrations of credit or other risks.

The GVAIF and Insurance Linked Securities Fund invest in the Investee funds whose objectives range from achieving medium to long term capital growth and whose investment strategy does not include the use of leverage. The asset managers of the Investee funds apply various investment strategies to accomplish their investment objectives. The Investee funds finance their operations by issuing redeemable shares which are puttable at the holder's option and entitles the holder to a proportional stake in the Investee funds net assets. The GVAIF and Insurance Linked Securities Fund hold redeemable shares in the Investee funds.

The change in fair value of the Investee funds is included in the statements of comprehensive income in net gain (loss) from financial instruments at FVTPL. The GVAIF's and Insurance Linked Securities Fund's maximum exposure to loss from their interests in the Investee funds is equal to the total fair value of their investments in the Investee funds. Once the GVAIF and Insurance Linked Securities Fund have disposed of their shares in the Investee funds, the GVAIF and Insurance Linked Securities Fund's cease to be exposed to any risk from the Investee funds.

The GVAIF's and Insurance Linked Securities Fund's investments in the Investee funds are susceptible to market price risk arising from uncertainties about future values of the Investee funds. The Manager makes investment decisions after extensive due diligence of the underlying Investee funds, its strategy and the overall quality of the underlying Investee funds' managers.

The exposure to investments in the Investee funds at fair value by strategy employed is disclosed in Note 8. These investments are included in financial assets at FVTPL in the statements of financial position.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)(b) **Structured entities** (continued)**Portfolio Fund/Investment Objective**

The following is a summary of the investment objectives and redemptions terms for the GVAIF's investments in the Investee funds:

Davidson Kempner International (BVI), Limited

The fund is a multi-strategy fund with an event-driven focus, seeking to exploit situations in which announced or anticipated events create opportunities to invest in securities and other financial instruments at a discount to their exit values. The fund also invests in a long/short equities portfolio of securities that can be readily valued and trade at a discount or premium to the fair value of the underlying assets. Shares may be redeemed on 60 days prior notice as of the business day of any calendar quarter without any redemption charge, or subject to a 1.5% redemption charge on the last business day of any other month. Class S Shares issued in connection with Special Investments are not redeemable by a shareholder. All redemptions are paid in USD, except Class D redemptions which are paid in GBP. For shareholders who own more than one series of shares, redemptions will be effected on first-in-first-out basis.

Caxton Global Investments Limited

The company's objective is capital appreciation and pursues its trading activity primarily through the investment of its capital in Caxton Intermediate Fund L.P. ("Caxton Intermediate"), a British Virgin Islands limited partnership which in turn invests substantially all of its capital in Caxton International Limited (the "International Fund"), a British Virgin Islands corporation. Shares may be redeemed on Monthly basis.

The Campbell Offshore Fund Limited Absolute Return SPC - Class I

The Absolute Return segregated portfolio of the fund engages in the speculative trading of future contracts, forward currency contracts, centrally cleared swap contracts, and exchange traded equity securities using total return swap contracts traded pursuant to its investment advisor's absolute return trading program. In order for the Absolute Return segregated portfolio to access its equity security exposure, it will invest a portion of its assets in its master fund (Campbell Equity Alpha Master Fund LP), as opposed to trading exchange traded equity securities using total return swap contracts directly. A shareholder may request and receive redemption of shares owned, subject to restrictions in the confidential offering memorandum of the fund.

The following is a summary of the investment objectives and redemptions terms for the Insurance Linked Securities Fund's investments in the Investee funds:

Juniperus Insurance Opportunity Fund Limited

The principal investment objective of the fund is to provide shareholders with access to a managed portfolio of collateralized reinsurance and Insurance-Linked Instruments, while attempting to offer positive risk-adjusted returns with limited correlation to other asset classes. The overall risk profile of the fund investment portfolio will be managed to attempt to limit concentration of exposure to any one particular event, peril or geographic region.

Shares may be redeemed, in whole or in part as of any December 31 or June 30 (with 90 days' prior written notice to the fund).

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)(b) **Structured entities** (continued)**NB Insurance-Linked Strategies Fund LP**

The investment objective of the partnership is to achieve attractive risk-adjusted returns that are demonstrably uncorrelated with traditional asset classes by investing, directly and indirectly, in a diversified portfolio of insurance-linked investments in catastrophe risk markets and other investments in catastrophe risk markets, with a particular focus on natural catastrophe risks, and through direct or indirect investments in reinsurance vehicles that write reinsurance or retrocession contracts. The partnership does not currently, but may in the future, being trade other instruments, either directly or indirectly, to achieve its objective including, but not limited to derivatives, such as swaps, options and other instruments.

Following the expiration of the Lock-Up Period with respect to the capital account of a limited partner, such limited partner may withdraw up to 25% of the balance of such capital account as of the end of any calendar quarter of any year upon 90 days prior written notice to the partnership.

(c) **Foreign currency translation**

The accounting records of the Funds are maintained in US dollars. Transactions denominated in foreign currencies are translated into US currency at the prevailing exchange rate on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to US dollars at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in US dollars at the beginning of the period, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year. Monetary items denominated in foreign currencies that are measured at fair value are retranslated to US dollars at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to US dollars at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in the statements of comprehensive income.

Realised and unrealised gains and losses arising from the effect of changes in exchange rates on foreign currency denominated investments are included in net gain (loss) from financial instruments at FVTPL.

(d) **Net gain (loss) from financial instruments at FVTPL**

Net gain (loss) from financial instruments at FVTPL includes all realised and unrealised fair value changes and foreign exchange differences but excludes interest and dividend income.

Realised gain (loss) from financial instruments at FVTPL is calculated using the average cost method.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)**(e) Dividend income and dividend expense**

Dividend income is recognised in the statements of comprehensive income when the right to receive income is established. For quoted equity securities this is usually the ex-dividend date. For unquoted equity securities this is usually the date when the board of directors have approved the payment of a dividend. Dividend income from equity securities designated at FVTPL is recognised in the statements of comprehensive income as dividend income.

(f) Distributions payable to holders of redeemable shares

Proposed distributions to holders of redeemable shares are recognised in the statements of comprehensive income when they are appropriately authorised and no longer at the discretion of the Fund. This typically occurs when proposed distribution is ratified by the Board of Directors. The distribution on the redeemable shares is recognised in the statements of comprehensive income.

(g) Interest

Interest income and expense, including interest income from non-derivative financial assets at fair value through profit or loss, are recognised in the statements of comprehensive income.

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash on deposit and short-term deposits and highly liquid securities, including investments in money-market funds and commercial paper, with a maturity of ninety days or less at the date of purchase.

(i) Allocation of fees and expenses

Fees and expenses are recognised in the statements of comprehensive income as the related services are performed. Fees and expenses incurred by the Company are attributed to the Funds in respect of which such fees and expenses are incurred. Expenses incurred for the general benefit of the Company are allocated pro-rata amongst the Funds.

(j) Taxation

At December 31, 2024, there is no Bermuda income, corporation, or profits tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by the Funds (2023: none). Under the Exempted Undertakings Tax Protection Act 1966, the Funds have received an assurance that, in the event of there being enacted in Bermuda any legislation imposing tax computed on profits or income, or computed on any capital assets, gain or appreciation or any tax in the nature of estate duty or inheritance tax, such tax shall not until March 31, 2035 be applicable to the Funds or to their operations, or to the shares, debentures or other obligations of the Funds. However, the Funds pay the applicable annual fees to the Bermuda Government and the Bermuda Monetary Authority.

The Funds have evaluated the tax positions and have concluded that there are no significant tax positions requiring recognition, measurement or disclosure in the financial statements. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statements of comprehensive income. As at December 31, 2024, the Funds did not incur any interest or penalties (2023: none).

However, some dividend and interest income received by the Funds are subject to withholding tax imposed in certain countries of origin. Income that is subject to such tax is recognized gross of the taxes and the corresponding withholding tax is recognised as a tax expense in the statements of comprehensive income.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***3. Material accounting policies** (continued)(j) **Taxation** (continued)

On December 27, 2023, Bermuda enacted the Corporate Income Tax Act 2023 (“Bermuda CIT Act”), creating a new Bermuda corporate income tax regime, which is similar in scope to the OECD Pillar 2 Model Rules. The Bermuda corporate income tax is effective for tax years beginning on or after January 1, 2025 and it is intended to apply to in-scope entities notwithstanding exemptions granted under the Exempted Undertakings Tax Protection Act 1966. Based on facts and circumstances as at December 31, 2024, the Company would not be within the scope of the Bermuda CIT Act.

(k) **Standards and amendments to existing standards effective from January 1, 2024****Adoption of new and revised international financial reporting standards:**

The amendments to IFRS listed below became effective during the year:

<u>Description</u>	<u>Effective Date</u>
Classification of liabilities as current and non-current and non-current liabilities with covenants (Amendments to IAS 1)	1 January 2024
Lease liability in a sale and leaseback (Amendments to IFRS 16)	1 January 2024
Amendments IFRS 7 – Supplier Finance Arrangements	1 January 2024

In the opinion of the Manager of the Funds, these amendments to standards did not have a material impact on the Funds, as the Funds have no application to the above-mentioned standards.

New standards, amendments and interpretations issued but not yet effective

At the date of authorisation of the financial statements, there were a number of standards and interpretations which were in issue but not yet effective. The Funds are assessing the impact of these standards and anticipates that the adoption of these standards and interpretations in future periods will not have a significant impact on its financial statements.

<u>Standards / amendments to standards / interpretations</u>	<u>Effective date</u>
Lack of exchangeability (Amendments to IAS 21)	1 January 2025
Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)	1 January 2026
Presentation and disclosures in financial statements (Amendments to IFRS 18)	1 January 2027
Subsidiaries without public accountability (Disclosures to IFRS 19)	1 January 2027

In the opinion of the Manager of the Funds, these standards, amendments to standards are not expected to have a material impact on the Fund's financial statements. The Funds intend to adopt these standards, if applicable, when they become effective.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***4. Fair value of financial instruments**

Investments in securities are carried at fair value. All of the Funds' other financial assets and liabilities, which include cash and cash equivalents, amounts due from or to brokers, accrued interest and dividends receivable, other amounts receivable or payable and accrued expenses, are either subject to market-based interest rates or are realised or settled within a short period of time. The carrying values of these financial assets and financial liabilities approximate their fair values.

The Funds' accounting policy on fair value measurements is discussed in Note 3(a)(v).

The Funds measure fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the observable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' data requires significant judgement by each Fund. Each Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, preference shares, government treasury bills and mutual funds with daily or weekly liquidity. The Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include corporate bonds.

As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Investments classified within level 3 have significant unobservable inputs, as they trade in frequently. During the year ended December 31, 2024, no investments have been transferred between level 1 and level 2.

There was no transfer between levels for the year ended December 31, 2024 (2023: None).

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2023

*(Expressed in U.S. dollars)***5. Fees and expenses****(a) Fees and expenses payable by the shareholders**

The Manager is responsible for the provision of all investment management and advisory services to the Funds.

(b) Custodian fees

The Bank of New York Mellon (BNY Mellon) is the custodian for the underlying securities of the Global Fixed Income, Preferred Equity, North American Founders, Small Cap Growth, International Equity, Managed Balance, Insurance linked securities Fund and High Yield Bond Funds of the Company. BNY is paid fees by the Funds in accordance with their fee schedule as agreed with the Manager. Clarien Bank Limited has been appointed to act as Banker and Custodian to the GVAIF and Insurance Linked Securities Fund.

(c) Management fees

The Management Fees charged to the Funds were at the following rates: Global Fixed Income 0.75%, Preferred Equity 1.0%, North American Founders 1%, Small Cap Growth 1.25%, International Equity 1.25%, Managed Balance 0.75%, High Yield Bond 1.15%, calculated weekly as a percentage of the Net Asset Value of each Fund respectively and are payable to the Manager quarterly in arrears. The Management Fees were charged to the Insurance Linked Securities Fund 1.50% per annum and Global Voyager Alternative Investment Fund 1.25% per annum, calculated monthly as a percentage of the Net Asset Value of Fund and are payable to the Manager quarterly in arrears.

(d) Administration fees

Apex Fund Services Ltd. serves as Administrator and acts as transfer agent and registrar for the Funds. For its services, the Administrator receives a fee paid out of the assets based upon the nature and extent of the services provided.

6. Share capital

The Company has an authorised share capital of \$12,000 divided into 8,000 management shares issued to, and held by, the Manager; and 40,000,000 participating shares. The management shares have voting rights, are non-redeemable, are non-participating shares and the par value of the management share is \$1 each. The participating shares have no voting rights, are redeemable and the par value of the participating shares is \$0.0001 each for up to nine Funds of shares currently including Global Fixed Income, Preferred Equity, North American Founders, Small Cap Growth, International Equity, Managed Balance, High Yield Bond, Global Voyager Alternative Investment Class A US\$ shares and Insurance Linked Securities Fund.

The management shares have been issued to the Manager, a related company, but not called as at December 31, 2024 or December 31, 2023.

The Company's Bye-laws allow for participating shares of each class to be issued either as Series C or Series A shares. Series C shares are generally intended for sale to Private Client or Institutional investors electing to use the Manager's Asset Management Service. Except Global Voyager Alternative Investment Class A US\$ shares, all participating shares issued to December 31, 2024, are Series C shares, which are not subject to any initial or deferred sales charges.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2023

*(Expressed in U.S. dollars)***6. Share capital (continued)**

Shares of Global Fixed Income Fund, Preferred Equity Fund, North American Founders Fund, Small Cap Growth Fund, International Equity Fund, Managed Balance Fund and High Yield Bond Fund may be redeemed on weekly basis. Shares may be redeemed on any particular Dealing Day. The Redemption Request must be provided to the Administrator at its head office before 5.00pm (Bermuda time) not less than two business days prior to the relevant Dealing Day or such date as may be specified in the relevant Schedule for the applicable Class. Late redemption request will not be processed until the next Dealing Day at the net asset value of the Shares applicable on that day. The Board may, in its absolute discretion, authorise the Administrator to allow redemptions on less than two business days' notice or such shorter period than may be specified in the relevant schedule for the applicable class. It is the responsibility of each Shareholder to check that its Redemption Request has been received by the Administrator.

GVAIF Shares of all classes may be redeemed effective as of the last calendar day of each respective quarter throughout the term of Fund ("Redemption Date"). A written notice ("Redemption Request") of the intention to redeem such shares as of the applicable Redemption Date is required. The Redemption Request must be provided to the Administrator by 5.00pm (Dublin time) on the business day that is at least sixty-five (65) calendar days prior to the relevant Redemption Date.

The Shareholder of Insurance Linked Securities Fund may withdraw up to 75% of the balance of their total fund value at any Redemption Date with the remainder to be distributed at the next available Redemption Date. Shareholders may request redemption of their Shares on June 30 and December 31 of each calendar year throughout the term of the Fund, or at such other time as determined by the Directors in their sole discretion (each a "Redemption Date"). Shareholders wishing to redeem Shares as of a particular Redemption Date must provide the Administrator by 5:00 p.m. Bermuda time on the business day that is at least ninety (90) calendar days prior to the relevant Redemption Date written notice of their intention to redeem such Shares as of the applicable Redemption Date. A Redemption Request, once made, will be irrevocable and may not be withdrawn without the consent of the Directors or the Manager

"Dealing Day" means the day on which issues and/or redemptions take place, being in all classes the day immediately following the Valuation Day, which is expected to be each Thursday save where such day is not a business day, or as otherwise provided in the relevant schedule for a particular class.

Capital Management

The Funds' capital consists solely of the net assets attributable to holders of redeemable shares. The Funds are not subject to externally imposed capital requirements.

The redeemable shares issued by the Funds provide an investor with the right to require redemption for cash at a value proportionate to the investor's share in the Funds' net assets and are classified as financial liabilities.

8. Financial risk management

The nine (2023: nine) Funds of the Company are exposed to a variety of financial instruments risks: credit, liquidity and market risks (including interest rate risk, currency risk and operational risk). The level of risk to which each Fund is exposed depends on the investment objective and the type of investments the Fund holds. The value of investments within a portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions and company specific news related to investments held by the Funds. The Manager may minimise potential adverse effects of these risks on performance by, but not limited to, regular monitoring of the classes' positions and market events, diversification of the investment portfolio by asset type, country, sector, term to maturity within the constraints of the stated objectives and through the usage of derivatives to hedge certain risk exposures.

(a) Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate or currency risk). The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital. Except for forward foreign exchange contracts, the maximum risk resulting from financial instruments is equivalent to their fair value. Possible losses from forward foreign exchange contracts can be significant.

Other assets and liabilities are monetary items that are short term in nature and therefore are not subject to significant other price risk.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***8. Financial risk management** (continued)(a) **Other price risk** (continued)i) **Global Fixed Income**

The other price risk of this Fund is insignificant as the class is mostly invested indirectly in fixed income securities through mutual fund instruments. Significant risks for this class are interest rate, credit and currency risk as further described within this note.

ii) **Preferred Equity**

The other price risk of this Fund relates primarily to U.S. fixed rate preferred stocks and is sensitive to changes in general economic conditions in the U.S. As of December 31, 2024, had the U.S. markets increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased, respectively, by approximately \$1,321,000 (2023 - \$1,221,000). In practice, actual trading results may differ from this sensitivity analysis and the difference may be material.

iii) **North American Founders**

The other price risk of this Fund is related to U.S. stocks and therefore is sensitive to changes in general economic conditions in the U.S. and Canada. As of December 31, 2024, had the U.S. large cap equity markets increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased, respectively, by approximately \$6,309,000 (2023 - \$4,140,000). In practice, actual trading results may differ from this sensitivity analysis and the difference may be material.

iv) **Small Cap Growth**

The other price risk of this Fund is related to Luxembourg small and mid cap stocks and therefore is sensitive to changes in general economic conditions in the Luxembourg market. As of December 31, 2024, had the Luxembourg small and mid-cap markets increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased, respectively, by approximately \$2,273,000 (2023 - \$2,043,000). In practice, actual trading results may differ from this sensitivity analysis and the difference may be material.

v) **International Equity**

The other price risk of this Fund is related primarily to international stocks and therefore is sensitive to changes in general economic conditions as represented by the MSCI EAFE Index. As of December 31, 2024, the class is mostly invested indirectly in international stocks through investment in another fund. As of December 31, 2024, had the MSCI EAFE Index increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased, respectively, by approximately \$1,110,000 (2023 - \$2,039,000). In practice, actual trading results may differ from this sensitivity analysis and the difference may be material.

vi) **Managed Balance**

The other price risk of this Fund is related primarily to U.S. stocks and debt, therefore is sensitive to changes in general economic conditions as represented by the MSCI ACWI Net Total Return USD Index (2023: MSCI World All Country Index, Bloomberg-US Intermediate Treasury Total Return Index) and 90 day US Treasury Bills. As of December 31, 2024, had the above name Indices increased or decreased by 10%, with all other variables held constant, net assets would have increased or decreased, respectively, by approximately \$489,000 (2023 - \$439,000). In practice, actual trading results may differ from this sensitivity analysis and the difference may be material.

vii) **High Yield Bond**

The other price risk of this Fund is insignificant as the class is mostly invested in fixed income securities. Significant risks for this class are interest rate, credit and currency risk as further described within this note.

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***8. Financial risk management** (continued)(a) **Other price risk** (continued)viii) **Global Voyager Alternative Investment Fund**

The Fund invests in the Investee funds and is susceptible to market price risk arising from uncertainties about future values of the Investee funds. The Manager makes investment decisions after an extensive assessment of the Investee funds, its strategy and the overall quality of the Investee funds' manager.

The exposure to investments in the Investee funds at fair value by strategy employed is disclosed in the following table. This investment is included in financial assets at FVTPL in the statement of financial position.

<u>2024</u>	Number of Investee Funds	Total net assets \$	Carrying amount included in financial assets at FVTPL \$	% of net assets
Investment in unlisted open-ended investment funds				
Multi-Strategy/Event Driven	3	14,423,636,477	33,260,523	99.56%
<u>2023</u>	Number of Investee Funds	Total net assets \$	Carrying amount included in financial assets at FVTPL \$	% of net assets
Investment in unlisted open-ended investment funds				
Multi-Strategy/Event Driven	3	13,919,414,108	31,062,955	98.84%

A rise or fall of 5% in Level 3 investment prices, with all other variables held constant, would result in the Fund's Level 3 investments increasing or decreasing by approximately \$1,663,026 (2023: \$1,553,148).

The exposure to investments in Investee funds at fair value by strategy employed is disclosed below:

- Caxton:** A Global Macro Hedge Fund which seeks to deliver consistent absolute returns across all market environments with an emphasis on capital preservation. Caxton employs a multi-portfolio manager framework and excels in discretionary global macro investing, leveraging its diverse expertise across asset classes and markets. For the year ended December 31, 2024, the share class has invested 32.80% (2023: 35.05%) of its NAV in this fund.
- DK:** The event driven Multi-Strategy Fund invests primarily in senior distressed investments and merger arbitrage with smaller allocations to long / short equities, convertible arbitrage, opportunistic distressed and long/short credit. This fund is a low volatility option designed to deliver consistent returns for the duration of the business cycle. For the year ended December 31, 2024, the share class has invested 33.64% (2023: 32.58%) of its NAV in this fund.

- 3. **The Campbell Offshore Fund Limited SPC (Absolute Return Segregated Portfolio):** The Absolute Return Segregated Portfolio engages in the speculative trading of futures contracts, forward currency contracts, centrally cleared swap contracts, and exchange traded equity securities using total return swap contracts traded pursuant to its investment advisor's absolute return trading program. For the year ended December 31, 2024, the share class has invested 33.13% (2023: 31.21%) of its NAV in this fund.

ix) **Insurance Linked Securities Fund**

The Fund invests in the Investee funds and is susceptible to market price risk arising from uncertainties about future values of the Investee funds. The Investment Manager makes investment decisions after an extensive assessment of the Investee funds, its strategy and the overall quality of the Investee funds' manager.

The exposure to investments in the Investee funds at fair value by strategy employed is disclosed in the following table. This investment is included in financial assets at FVTPL in the statement of financial position.

<u>2024</u>	Number of Investee Funds	Total net assets \$	Carrying amount included in financial assets at FVTPL \$	% of net assets
Investment in unlisted open-ended investment funds				
Multi-Strategy/Event Driven	2	5,121,714,753	14,491,861	96.74%
<u>2023</u>	Number of Investee Funds	Total net assets \$	Carrying amount included in financial assets at FVTPL \$	% of net assets
Investment in unlisted open-ended investment funds				
Multi-Strategy/Event Driven	2	2,170,349,340	12,725,124	95.33%

A rise or fall of 5% in Level 3 investment prices, with all other variables held constant, would result in the Fund's Level 3 investments increasing or decreasing by approximately \$724,593 (2023: \$636,256).

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***8. Financial risk management** (continued)(a) **Other price risk** (continued)ix) **Insurance Linked Securities Fund** (continued)

The exposure to investments in Investee funds at fair value by strategy employed is disclosed below:

- Juniperus Insurance Opportunity Fund Limited:** The majority of the fund's investments are in collateralized reinsurance and Insurance Linked Instruments that have limited liquidity. For the year ended December 31, 2024, the share class has invested 61.93% (2023: 60.42%) of its NAV in this fund.
- NB Insurance-Linked Strategies Fund LP:** NB Insurance invests in a diversified portfolio of insurance linked securities and other investments in catastrophe risk markets, with a particular focus on natural catastrophe risks, and through direct or indirect investments in reinsurance vehicles that write reinsurance or retrocession contracts. For the year ended December 31, 2024, the share class has invested 34.81% (2023: 34.91%) of its NAV in this fund.

(b) **Interest rate risk**

Interest rate risk is the risk that the fair value of interest-bearing investments will fluctuate due to changes in prevailing levels of market interest rates. Other than those Funds that invest in debt securities, the majority of the Funds' assets and liabilities are non-interest bearing. Non-interest-bearing assets include investments in mutual funds and the exposure to interest rate risk is limited to the Funds' holdings in those mutual funds. The value of the classes that invest in debt securities will be affected by changes in applicable interest rates. If interest rates fall, the fair value of existing debt securities may increase due to the increase in price. On the other hand, if interest rates rise, the yield of existing debt securities may decrease which will then lead to a decrease in their fair value. The magnitude of the decline will generally be greater for long term debt securities than short-term debt securities.

The tables below summarise the classes' exposure to interest rate risk. They include the classes' assets and liabilities at fair value, categorised by the contractual maturity date. The net assets attributable to holders of redeemable shares is non-interest bearing.

Global Fixed Income for the year ended December 31, 2024

Management monitors performance of this class against the prevailing ICE BoFA US 3M T-Bill TR USD index (2023: ICE BoFA US 3M T-Bill TR USD index) on a daily basis.

As at December 31, 2024, had the prevailing interest rate increased or decreased by 0.50% assuming a movement in the yield curve, with all other variables held constant, net assets would have decreased or increased, respectively, by approximately \$171,900 (2023 - \$99,054). In practice, the actual results may differ from this sensitivity analysis and the difference may be material.

The table above lists preferred stock by maturity date with those classed as “perpetual” included in the “greater 5 years” category. Preferred stocks may be callable when the issuing company has a right to redeem the outstanding preferred shares at its discretion or as defined in the issuance prospectus. The securities defined as being perpetual in regard to maturity may have a callable feature, traditionally in five years from issue. Once the call date has been arrived at, the security may have a 30 day notice period before the issuer can redeem the issue at the price stated in the security’s prospectus.

Management monitors performance of this class against the S&P Preferred Stock Index on a daily basis.

As at December 31, 2024, had the prevailing interest rate increased or decreased by 0.50% assuming a movement in the yield curve, with all other variables held constant, net assets would have decreased or increased, respectively, by approximately \$431,905 (2023 - \$849,807). In practice, the actual results may differ from this sensitivity analysis and the difference may be material.

As at December 31, 2023, Insurance Linked Securities Fund has insignificant exposure to interest rate as nearly all of its assets are invested in fund investments.

As at December 31, 2024, had the prevailing interest rate increased or decreased by 0.50% assuming a movement in the yield curve, with all other variables held constant, net assets would have decreased or increased, respectively, by approximately \$nil. In practice, the actual results may differ from this sensitivity analysis and the difference may be material.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***8. Financial risk management (continued)****(b) Interest rate risk (continued)**

The majority of the Small Cap Growth Shares, International Equity Shares and Global Voyager Alternative Investment Fund financial assets and financial liabilities are non-interest bearing and as a result these Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. The Small Cap Growth, International Equity, Global Voyager Alternative Investment Fund, Managed Balance Fund and Insurance Linked Securities Fund may also be indirectly affected by the impact of interest rate changes on the interest-bearing securities held in the Investee funds in which the Funds invest. Therefore, the total effect of future movements in interest rates on the Funds' net assets attributable to holders of shares may not be fully and reasonably measured.

(c) Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than U.S. dollars of the Funds. As a result, the classes may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in the exchange rates. The schedules of investments identify bonds, forward exchange contracts and stocks traded in foreign markets which have been converted to U.S. dollars for presentation purposes at year end.

Currency risk is indicated for foreign securities within a class comprising 10% or more of the total value of all securities.

As at December 31, 2024 and 2023, International Equity Fund and North American Fund has insignificant exposure to Currency risk.

There were no significant foreign currency cash amounts (over \$25,000) held by any of the Funds at December 31, 2024 and 2023.

The Global Voyager Alternative Investment Fund, Global Fixed Income Fund, Managed Balance Fund, Small Cap Growth Fund, International Equity Fund, Preferred Equity Fund and Insurance Linked Securities Fund may also be indirectly affected by the impact of foreign exchange rate changes on the financial instruments held in the Investee funds in which the Funds invest. Therefore, the total effect of future movements in foreign exchange rates on the Funds' net assets attributable to holders of shares may not be fully and reasonably measured.

(d) Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The fair value of a debt instrument includes consideration of the creditworthiness of the debt issuer. In their selection of securities, brokers and counterparties, the Manager reviews each issuer and entity for credit risk and default risk and determines an overall assessment of credit quality of the classes' securities.

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***8. Financial risk management** (continued)(d) **Credit risk** (continued)

The carrying amount of debt instruments as presented in the schedules of investments in Note 13 represents the maximum credit risk exposure of each class. Credit risk exposure for derivative instruments is based on each class unrealised gain (loss) on the contractual obligations with the counterparty as at the reporting date and is reported in the statements of financial position. Credit risk exposure for investments in mutual funds is limited to the Funds' holdings in the underlying assets of the investee companies.

All fixed income securities rated BBB/Baa/B++ or above are considered investment grade and have a lower credit risk than below investment grade bonds.

The following Funds were invested in debt securities with following credit ratings, as per tables below:

GLOBAL VOYAGER FUNDS LIMITED

Notes to Financial Statements

December 31, 2024

*(Expressed in U.S. dollars)***8. Financial risk management** (continued)**(e) Liquidity risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's prospectus provides for the weekly subscription and redemption of all Funds shares except GVAIF and Insurance Linked Securities Fund which provide for monthly subscription and allow for redemptions on the last calendar day of each respective quarter throughout the term of the GVAIF and ILS, and it is therefore exposed to the liquidity risk of meeting shareholders' redemptions. The Company's prospectus also provides the conditions under which the Directors may suspend the determination of the Net Asset Value and the redemption, subscription and conversion of shares of any class of shares. While the Company's Board of Directors is permitted to suspend redemptions in certain circumstances, all of the Funds' investments at December 31, 2024 and December 31, 2023 are considered to be highly realisable, mitigating the liquidity risk of the Funds as at December 31, 2024 and December 31, 2023. The majority of cash balances held by each Fund is placed with the Funds' custodian.

In the event the Net Asset Value of any class of shares falls below an amount at which it is impractical to meet the class's investment objective, the prospectuses of the Funds provide the Directors with absolute discretion to compulsorily redeem all (but not some) Shares of the relevant class by giving any holder of the class not less than five (5) days written notice prior to any Valuation Day.

The table below analyses the Funds' non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the statements of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

Global Fixed Income

Liquidity risk may arise from the potential inability to redeem the GVAIF's investment in the Investee funds without undue delay as the directors of the Investee funds have the option to refuse to redeem any participating shares in excess of 25% of the total number of such participating shares in the Investee funds or in an Investee fund's share class. If they so refuse, the requests for redemption on such Dealing Day shall be reduced rateably and the participating shares to which each request relates which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all the participating shares in the original redemption request been redeemed.

8. Financial risk management (continued)

(e) **Liquidity risk** (continued)

Global Voyager Alternative Investment Fund (continued)

Liquidity risk may also arise from the potential inability to redeem an investment in financial instruments without undue delay at a price close to its market value. The Investee Funds may invest in securities which are unlisted or for which there is not an active market. In particular, the Investee Funds may invest in illiquid markets or instruments. In addition, the Investee Funds may acquire investments that are only traded over-the-counter. Accurately valuing and realising such investments or closing out positions in such investments at appropriate prices may not always be possible.

The GVAIF’s liquidity risk is managed on a daily basis by the Manager in accordance with policies and procedures in place. The overall liquidity risk is monitored on a monthly basis by the Board of Directors.

The GVAIF can manage its overall liquidity in a number of ways. The GVAIF may, in the sole discretion of the Directors, take longer than the thirty days as set out in the GVAIF’s supplement to effect settlements of redemptions or may effectuate only a portion of a requested redemption. Under certain circumstances, the GVAIF may settle redemptions, in whole or in part, in-kind and may extend the duration of the redemption notice period if the Directors deem such an extension as being in the best interest of the GVAIF and the non-redeeming Shareholders. Furthermore, under certain circumstances, the GVAIF may suspend redemptions. The GVAIF did not withhold any redemption or implement any suspension during 2024 (2023: none).

8. Financial risk management (continued)

(f) **Operational risk**

Operational risk is the risk of direct or indirect loss arising from a wider variety of causes associated with the processes, technology and infrastructure supporting the Funds' activities with financial instruments either internally within the Funds or externally at the Funds' service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behavior.

The Funds objectives are to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to investors.

10. Related party transactions

The Directors of the Company serve as directors of certain entities, including entities related to the Manager, which hold investments in the Funds. At December 31, 2024 and 2023, these entities held investments in the Funds as follows:

Fund	2024 Percentage of net assets of the portfolio %	2023 Percentage of net assets of the portfolio %
Global Fixed Income Fund	32	31
Preferred Equity Fund	26	27
North American Founders Fund	35	36
Small Cap Growth Fund	34	33
International Equity Fund	37	38
High Yield Bond Fund	27	27

For the year ended December 31, 2024 and 2023, no investments were held directly by the directors and/or their immediate families in the following Funds; Preferred Equity, Global Fixed Income, North American Founders, Small Cap Growth, International Equity, Managed Balance, High Yield Bond, Global Voyager Alternative Investment Fund and Insurance Linked Securities Fund. No directors fees were payable or paid by the Company for the year ended December 31, 2024 and 2023. All transactions were made on terms equivalent to those that prevail in arm's length transactions.

As at December 31, 2024, the Manager has a 98.97% (2023: 99.00%) holding in Global Voyager Alternative Investment Fund. The management fees for the year ended December 31, 2024 for GVAIF were \$409,039 (2023: \$396,114) of which \$103,722 (2023: \$65,379) was payable at the year end. Details of fees paid to related parties are also set out in Note 5.

As at December 31, 2024, the Manager has a 100% (2023: 100%) holding in Insurance Linked Securities Fund. The management fees for the year ended December 31, 2024 for ILS Fund were \$209,925 (2023: \$181,377) of which \$55,268 (2023: \$33,255) was payable at the year end. Details of fees paid to related parties are also set out in Note 5.

As at December 31, 2024, the Managed Balance Fund held 1.03% (2023: 1.00%) in Global Voyager Alternative Investment Fund.
