Established in 1971, the Bermuda Stock Exchange (BSX) is today the world's preeminent, fully-electronic, offshore securities exchange, offering domestic and international issuers an affordable, well-regulated listing venue.

- With over 800 listed issuers, BSX is a leading market for the listing of investment funds, debt and insurance linked securities, as well as small to medium sized enterprise companies.
- Based on the principle of full disclosure, BSX Listing Regulations have been explicitly written with institutional and HNW investors in mind, thus streamlining the process and providing issuers with speed to market.
- The Exchange's pragmatic approach ensures listing fees are comparable to and, in certain instances, significantly less than other competitive markets.
- Geographically positioned between two of the world's deepest capital markets, Bermuda's unrivaled time zone offers a significant commercial advantage, allowing for same day, real-time access to markets in the Americas as well as Europe.
- BSX is a full member of the World Federation of Exchanges (WFE) and currently holds a seat on the WFE's Board of Directors. The Exchange is also an affiliate member of the International Organization of Securities Commissions (I.O.S.C.O.).
- Supported by a Nasdaq licensed trading and settlement platform, BSX's international profile provides listed issuers with added recognition and visibility, satisfying, and often exceeding, the listing imperative set by most institutional investors. All BSX listings and trading activity can be accessed 24/7 on Bloomberg and [www.bsx.com](http://www.bsx.com).
